## **ASSIGNMENT**

In consideration of good and valuable consideration described below, the receipt of which is hereby acknowledged, I, the undersigned:

**Michael G. Ross**

hereby sell, assign, and transfer to:

**Los Angeles Biomedical Research Institute at Harbor-UCLA Medical Center**

a corporation of California, having a principal place of business at 1124 West Carson Street, Torrance, California 90502 USA ("Assignee"), its successors, assigns and legal representatives, the entire right, title and interest for the United States and all foreign countries, in and to any and all improvements that are disclosed in the application for United States Letters Patent filed on April 30, 2004, and assigned Application No. 10/836,963 and is entitled:

### **Method and System for Measuring Amniotic Fluid Volume and/or Assessing Fetal Weight**

and in and to said application and all design, utility, divisional, continuing, continuation-in-part, substitute, renewal, reissue, and all other applications that have been or shall be filed in the United States and all foreign countries on any of said inventions and improvements; and in and to all original and reissued patents that have been or shall be issued in the United States and all foreign countries on said inventions and improvements; and in and to all rights of priority resulting from the filing of said United States application;

agree that said Assignee may apply for and receive a patent or patents for said inventions and improvements in its own name; and that, when requested, without charge to, but at the expense of, said Assignee, its successors, assigns and legal representatives, to carry out in good faith the intent and purpose of this Assignment, the undersigned will execute all design, utility, divisional, continuing, continuation-in-part, substitute, renewal, reissue, and all other patent applications on any and all said inventions and improvements; execute all rightful oaths, assignments, powers of attorney and other papers; communicate to said Assignee, its successors, assigns, and legal representatives all facts known to the undersigned relating to said inventions and improvements and the history thereof; and generally assist said Assignee, its successors, assigns or legal representatives in securing and maintaining proper patent protection for said inventions and improvements and for vesting title to said inventions and improvements and all applications

for patents and all patents on said inventions and improvements, in said Assignee, its successors, assigns and legal representatives; and

covenant with said Assignee, its successors, assigns and legal representatives that no assignment, grant, mortgage, license or other agreement affecting the rights and property herein conveyed has been made to others by the undersigned, and that full right to convey the same as herein expressed is possessed by the undersigned.

The good and valuable consideration for the assignment is that Assignee will pay all patent-related expenses and that any income generated from any and all inventions and improvements disclosed in the provisional application shall first be applied to pay Assignee's patent-related expenses and then shall be divided 90 percent to the undersigned and 10 percent to Assignee.
