NUNC PRO TUNC ASSIGNMENT

Whereas, we, Peter Bartlett, a citizen of Australia, André Elisseeff, a citizen of France, Bernhard Schölkopf, a citizen of Germany and Olivier Chapelle, a citizen of France, hereinafter referred to as “Assignors,” have invented an invention entitled “KERNELS AND METHODS FOR SELECTING KERNELS FOR USE IN LEARNING MACHINES,” for which an International Patent Application was filed in the United States Receiving Office on May 7, 2002 and was assigned application Serial No. US02/14311; and

Whereas, Biowulf Technologies, LLC, with a principal place of business at 7505 Waters Avenue, Suite E4, Savannah, Georgia 31406, hereinafter referred to as “Assignee,” is desirous of acquiring the exclusive right, title and interest in the invention, the application, and any patents and equivalent legal protections that are obtained thereon in the United States and in any foreign countries;

Effective May 7, 2002, for good and valuable consideration, the receipt of which is hereby acknowledged, Assignors do hereby assign and transfer to Assignee, its successors and assigns, the full and exclusive right, title and interest in the invention, the application, and any patents and equivalent legal protections that are obtained thereon in the United States and in any foreign countries, including any continuations, divisions, renewals, substitutes, reissues or legal equivalents thereof, for the full term(s) for which the same is granted, including all priority rights under the International Convention.

Assignors, in accordance with this Assignment, hereby authorize and request the United States Commissioner for Patents, and officials of foreign countries whose duty it is to issue

patents or legal equivalents thereof, to issue any patents obtained on the invention to Assignee, its successors and assigns.

For the same consideration, Assignors covenant that no assignment, sale, agreement or encumbrance has been or will be made or entered into that would conflict with this Assignment.

AND, for the same consideration, Assignors further covenant that Assignee will, upon its request, be provided promptly with all pertinent facts and documents relating to this invention and any applications, patents or legal equivalents directed thereto that are known and accessible to Assignors, and that Assignors will testify in any interference or litigation related thereto.

AND, for the same consideration, Assignors further covenant that they will promptly execute and deliver to Assignee or its legal representative any documents, instruments or affidavits required to apply for, obtain, maintain, issue, perfect legal title and enforce this invention and any applications, patents or legal equivalents directed thereto in the United States or in any foreign country.

patents or legal equivalents thereof, to issue any patents obtained on the invention to Assignee, its successors and assigns.

For the same consideration, Assignors covenant that no assignment, sale, agreement or encumbrance has been or will be made or entered into that would conflict with this Assignment.

AND, for the same consideration, Assignors further covenant that Assignee will, upon its request, be provided promptly with all pertinent facts and documents relating to this invention and any applications, patents or legal equivalents directed thereto that are known and accessible to Assignors, and that Assignors will testify in any interference or litigation related thereto.

AND, for the same consideration, Assignors further covenant that they will promptly execute and deliver to Assignee or its legal representative any documents, instruments or affidavits required to apply for, obtain, maintain, issue, perfect legal title and enforce this invention and any applications, patents or legal equivalents directed thereto in the United States or in any foreign country.
