## ASSIGNMENT OF INVENTION

This Assignment is entered by Bonnie Rose Stewart, an employee of United Services Automobile Association ("USAA") and a citizen of the United States ("Employee") who is an inventor of "METHOD, SYSTEM, AND COMPUTER PROGRAM PRODUCT FOR THE AUTHENTICATION OF MULTIPLE USERS IN A COMMON SESSION").

Consideration. In consideration of Employee's continued at-will employment with USAA, and other good and valuable consideration, the receipt of which is hereby acknowledged, Employee acknowledges and agrees as follows:

1. Employee does hereby sell, assign, transfer and set over unto USAA, the entire right, title and interest in the Invention; including, without limitation, the following: (1) all patent, trademark, copyright, and trade secret rights; and (2) the United States patent application for said Invention and all divisions, renewals and continuations for the Invention, and all patents of the United States which may be granted thereon and all reissues thereof; and (3) all applications for industrial property protection, including, without limitation, all applications for patents, utility models, trademarks, copyrights, trade secrets, and designs which may hereafter be filed for the Invention in any country foreign to the United States, together with the right to file such applications and the right to claim for the same the priority rights derived from said United States application under the patent laws of the United States, the International Convention for the Protection of Industrial Property, or any other international agreement or the domestic laws of the country in which any such application is filed, as may be applicable; and (4) all forms of industrial property protection, including, without limitation, patents, utility models, trademarks, copyrights, trade secrets, and design which may be granted for the Invention in the United States and in any country foreign to the United States and all extensions, renewals and reissues thereof; and (5) any and all claims or causes of action that may otherwise have accrued in Employee's favor.

2. Employee authorizes and requests the Commissioner of Patents of the United States, and any Official of any country foreign to the United States, whose duty it is to issue patents or other evidence or forms of industrial property protection on applications as stated above, to issue the same to USAA, in accordance with the terms of this Assignment.

3. Employee has full right to convey the entire interest herein assigned, and Employee has not executed, and will not execute, any agreement in conflict with this Assignment.

4. Employee will fully cooperate with USAA to obtain and enforce intellectual property law protection for the Invention in all countries, and understands such cooperation includes, without limitation, promptly communicating with USAA any facts known to Employee respecting the Invention, testifying in any legal proceeding, signing all papers, executing all divisions, continuing and reissuing applications, and making all oaths and/or declarations.

5. Employee's relationship with USAA is at-will. Either USAA or Employee has the right to terminate the relationship at any time, for any reason, with or without cause or notice. Nothing in this document affects the at-will status of Employee's employment or creates an express or implied contract of employment.

6. The term USAA, as used throughout this Assignment, includes United Services Automobile Association, and all of its past, present, and future parents, subsidiaries, and affiliates, and other current or former related entities thereof, and all of the past, present, and future officers, directors, employees, agents, members, insurers, legal counsel, and successors and assigns of said entities.

## ASSIGNMENT OF INVENTION

This Assignment is entered into by Pamela Ann Thibodeaux, a citizen of the United States ("Inventor") who is an inventor of "METHOD, SYSTEM, AND COMPUTER PROGRAM PRODUCT FOR THE AUTHENTICATION OF MULTIPLE USERS IN A COMMON SESSION" (the "Invention").

Consideration. In consideration of Fifteen Hundred Dollars (\$1500.00), and other good and valuable consideration from USAA, the receipt of which is hereby acknowledged, Inventor acknowledges and agrees as follows:

1. Inventor does hereby sell, assign, transfer and set over unto USAA, the entire right, title and interest in the Invention; including, without limitation, the following: (1) all patent, trademark, copyright, and trade secret rights; and (2) the United States patent application for said Invention and all divisions, renewals and continuations for the Invention, and all patents of the United States which may be granted thereon and all reissues thereof; and (3) all applications for industrial property protection, including, without limitation, all applications for patents, utility models, trademarks, copyrights, trade secrets, and designs which may hereafter be filed for the Invention in any country foreign to the United States, together with the right to file such applications and the right to claim for the same the priority rights derived from said United States application under the patent laws of the United States, the International Convention for the Protection of Industrial Property, or any other international agreement or the domestic laws of the country in which any such application is filed, as may be applicable; and (4) all forms of industrial property protection, including, without limitation, patents, utility models, trademarks, copyrights, trade secrets, and design which may be granted for the Invention in the United States and in any country foreign to the United States and all extensions, renewals and reissues thereof; and (5) any and all claims or causes of action that may otherwise have accrued in Inventor's favor.

2. Inventor authorizes and requests the Commissioner of Patents of the United States, and any Official of any country foreign to the United States, whose duty it is to issue patents or other evidence or forms of industrial property protection on applications as stated above, to issue the same to USAA, in accordance with the terms of this Assignment.

3. Inventor has full right to convey the entire interest herein assigned, and Inventor has not executed, and will not execute, any agreement in conflict with this Assignment.

4. Inventor will fully cooperate with USAA to obtain and enforce intellectual property law protection for the Invention in all countries, and understands such cooperation includes, without limitation, promptly communicating with USAA any facts known to Inventor respecting the Invention, testifying in any legal proceeding, signing all papers, executing all divisions, continuing and reissuing applications, and making all oaths.

5. Inventor is not an employee of USAA and execution of this Assignment does not create any express or implied contract of employment.

6. The term USAA, as used throughout this Assignment, includes United Services Automobile Association, and all of its past, present, and future parents, subsidiaries, and affiliates, and other current or former related entities thereof, and all of the past, present, and future officers, directors, employees, agents, members, insurers, legal counsel, and successors and assigns of said entities.
