### Patent Assignment

Whereas, Sunol Molecular Corporation, a corporation duly organized and existing under and by virtue of the laws of the state of Delaware, and having a principal place of business at 2810 North Commerce Parkway, Miramar, Florida 33025-3958 (herein called "Assignor"), is the beneficial owner of patents, patent applications and improvements listed below (herein "Patents"); and

WHEREAS, Tanox, Inc., a corporation duly organized and existing under and by virtue of the laws of the state of Delaware, and having a principal place of business at 10301 Stella Link, Houston Tx 77025 (herein called "Assignee"), is desirous of acquiring and Assignor is desirous of assigning to Assignee all right, title and interest in and to said Patents;

NOW, THEREFORE, Assignor, for good and valuable consideration, the receipt and sufficiency of which is hereby acknowledged, do hereby SELL, ASSIGN and CONVEY unto Assignee all its right, title, and interest throughout the world in and to: (i) said Patents; (ii) all applications for patent or like protection on said Patents that have now been or may in the future be made by Assignor or their legal representatives, whether in the United States of America or any other country or place anywhere in the world; (iii) all patents and like protection that have now been or may in the future be granted on said Patents to Assignor or their legal representatives, whether in the United States of America or in any other country or place anywhere in the world; (iv) all substitutions for and divisions, continuations, continuations-in-part, renewals, reissues, extensions, and the like of said applications and patents and like grants, including without limitation, those obtained or permissible under past, present and future law or statutes; (v) all rights of action on account of past, present and future unauthorized use of said Patents and for infringement of said patents and like protection; (vi) the right of Assignee to file in its name applications for patents and like protection for said Patents in any country or countries foreign to the United States; and (vii) all international rights or priority associated with said Patents and like protection. In addition, Assignor assigns all rights of action for infringement of the Assigned Patent Rights, both past and present, by third parties.

Assignor covenants that Assignor, its officers, directors, legal representatives, assigns, and administrators will, at its own expense, execute all papers and perform such other acts as may be reasonably necessary to give Assignee, its successors and assigns, the full benefit of this Assignment.

WITNESS, the hand and seal of the Assignor on the date(s) indicated.

Sunol Molecular Corporation

DATE: March 31, 2005

By:
