And whereas, **Dura Global Technologies, Inc.** a corporation duly organized and existing under the laws of the State of Michigan and having a place of business at 2791 Research Drive, Rochester Hills, Michigan 48309, is desirous of acquiring the entire right, title and interest in, to and under said invention and said patent application, any continuing applications, continuations-in-part, divisional applications, refiled or reissue applications made in the United States of America and all other Nations which may result from said invention and information disclosed in said application, and any and all Letters Patent of the United States and other Nations which may be issued therefrom;

Now, therefore, in accordance with our employment agreements and for other good and valuable consideration, the receipt of which is hereby acknowledged, We, **Walter J. Steiner**, **Charles Flynn**, **Madhu Posani**, **Rosanne Knox**, and **John Truckey**, do hereby sell, assign and transfer to **Dura Global Technologies, Inc.** the entire and undivided right, title and interest in and to our invention of new and useful improvements in and to a “**MANUAL TIRE CARRIER WITH TRAVEL SWITCH**”, said application for letters patent, the invention therein described, and all rights appurtenant thereto and in all our applications related thereto, including each of the following: the right to apply for any letters patent for said invention in the United States of America and in any and all foreign countries, any and all other applications for letters patent on said invention, in whatsoever countries, including all divisional, renewal, substitute and continuation applications based in whole or in part upon said invention or upon said application or related thereto; any and all letters patent that may issue thereon in the United States and foreign countries and any and all reissues, extensions, renewals, divisions, or continuations of letters patent granted for said inventions or upon said applications, to the full end of the term or terms for which said letters patent may be issued; and every priority or other right accorded by every international convention, treaty or agreement that is or may be predicated upon or arise from said invention, application and other applications or letters patent therefor, all to be held by **Dura Global Technologies, Inc.**, its successors and assigns, all the same as we would have held and enjoyed had this Assignment not been made.
