Recitals

Assignor wishes to assign to Assignee, and Assignee wishes to obtain from Assignor, the United States patents set forth on attached Schedule A, and other patents, utility models, invention registrations, and disclosures as set forth on attached Schedule B, together with all associated patent rights to the inventions disclosed therein (the "Patents").

Therefore, for good and valuable consideration, the receipt and sufficiency of which is acknowledged, Assignor assigns to Assignee its entire right, title, and interest in and to the Patents, for the United States and for all other countries. This assignment includes all income, royalties, damages, or payments due or payable as of the Effective Date or thereafter, including, without limitation, all claims for damages by reason of past, present, or future infringement or other unauthorized use of the Patents, together with the right to sue for and to collect such damages for its own use and enjoyment, and for the use and enjoyment of its successors, assigns, or other legal representatives.

Assignor authorizes and requests the Director of the U.S. Patent and Trademark Office, and the corresponding entities or agencies in any other applicable countries, to record Assignee as owner of the Patents.

Assignor shall, at Assignee's expense, take all further actions, and provide to Assignee, Assignee's successors, assigns or other legal representatives, all such cooperation and assistance (including, without limitation, the execution and delivery of any and all affidavits, declarations, oaths, exhibits, assignments, powers of attorney, or other documentation), requested by Assignee to more fully and effectively carry out the purposes of this Assignment. This includes, without limitation, any of the following: (1) the preparation and prosecution of any applications relating to any of the rights assigned herein; (2) the prosecution or defense of any interference, opposition, reexamination, reissue, infringement, or other proceedings that may arise in connection with any of the rights assigned herein, including, without limitation, testifying as to any facts relating to the Patents and this Assignment; (3) obtaining any additional patent protection relating to any of the rights assigned herein that Assignee may deem appropriate that may be secured under the laws now or hereafter in effect in the United States or any foreign
