Assignment of Application and Patent

Whereas, I, Giselher Klose, of Auerbach, Germany, have made an invention relating to Device for Decontamination of Water, said invention being disclosed and claimed in an application for United States patent, executed on 8-12-2002, and assigned application number 10/243,561 and filing date 9-12-2002; and

Whereas I, in consideration of an agreement with ARS USA LLC (hereinafter "assignee"), mailing address P.O. Box 892, Placitas, NM 87043, have agreed, among other things, to assign to assignee, its successors and assigns, all rights to the invention(s) described in the above-referenced patent application;

Therefore, I hereby sell, assign, and transfer unto assignee my entire right, title, and interest in and to said invention and in and to all resulting U.S. patents, as well as reissues or extensions of said patents. I hereby authorize and request the Commissioner of Patents and Trademarks to issue said patents to assignee, of the entire right, title, and interest in and to the same, to the full end of the term for which said patents may be granted, as fully and entirely as the same would have been held by me had this assignment and sale not been made.

I covenant with assignee that my interest in the rights and property herein conveyed is free and clear of any encumbrance and that I have full right to convey the same as herein expressed. I agree, at the request of assignee, to make, execute, and deliver to assignee, or other party prosecuting patent applications on this invention, any and all papers, documents, affidavits, applications, statements or other instruments relating to said invention, take all rightful oaths and do all acts as may reasonably be required of me in or incident to the prosecution of any or all applications on said invention or in the adjustment or settlement of any interferences or other actions or proceedings that said applications or patents thereon may encounter or in which they may become involved.
