**Assignment of Rights: Patent Applications
Hand Protector & Knee Protector
Peter Krajian and Jerome Gold
to
KAGEPRO LLC**

Peter Krajian and Jerome Gold ("Assignors") are owners and inventors of the Hand Protector and Knee Protector as described in 1) U.S. Patent Application for the **Knee Protector**, Serial Number: US 10/718,250 with a filing date of 10/14/03 and 2) U.S. Patent Application for the **Hand Protector**, Serial Number US 10/900,406 with a filing date of 11/11/03 (the "Patent Applications"). **KAGEPRO LLC** ("Assignee") desires to acquire all rights in and to the Patent Applications and the patents (and any reissues or extensions) that may be granted.

Therefore, for valuable consideration, the receipt of which is acknowledged, Assignors assign to Assignee 100% of their right, title and interest in the invention and Patent Application (as well as such rights in any divisions, continuations in whole or part or substitute applications) to Assignee for the entire term of the issued Patent and any reissues or extensions that may be granted and for the entire terms of any and all foreign patents that may issue from foreign applications (as well as divisions, continuations in whole or part or substitute applications) filed claiming the benefit of the Patent Applications and any priority rights resulting from the Patent Applications.

Assignors authorize the United States Patent and Trademark Office to issue any Patents resulting from the Patent Applications to Assignee according to the percentage interest indicated in this assignment. The right, title and interest is to be held and enjoyed by Assignee and Assignee's successors and assigns as fully and exclusively as it would have been held and enjoyed by Assignors had this assignment not been made.

Assignors further agree to: (a) cooperate with Assignee in the prosecution of the Application and foreign counterparts; (b) execute, verify, acknowledge and deliver all such further papers, including patent applications and instruments of transfer; and (c) perform such other acts as Assignee lawfully may request to obtain or maintain the Patent for the invention in any and all countries.
