ASSIGNMENT

Whereas, we, **Jens H. Knudsen** of Kolding, Denmark, **Garett E. Lefebvre** of Freeport, Maine, and **Barry C. Rhodes** of Portland, Maine, hereafter referred to collectively as "Inventors", have invented certain new and useful improvements in an "**UNDER PILLOW BLOCK LOAD CELL**", for which a utility application for a United States Patent was filed on **April 13, 2005**; and

Whereas, **The Montalvo Corporation**, hereafter referred to as "Assignee", whose mailing address is 50 Hutcherson Drive, Gorham, Maine, 04038, is desirous of acquiring the entire right, title and interest in the same;

Now, therefore, in consideration of the sum of one dollar (\$1.00), the receipt of which is acknowledged, and other good and valuable consideration, we, the Inventors, by these presents do sell, assign and transfer unto said Assignee the full and exclusive right to the said invention in the United States and throughout the world, and the entire right, title and interest in and to any and all applications, and patents, divisions, reissues, continuations and extensions thereof, and all rights of priority resulting from the filing of said application, which may be granted therefore in the United States. We authorize the above-named Assignee to apply for patents of foreign countries for said Invention, and to claim all rights of priority without further authorization from us. We agree to execute all papers useful in connection with said United States and foreign applications, and generally to do everything possible to aid said Assignee, its successors, assigns and nominees, at their request and expense, in obtaining and enforcing patents for said Invention in all countries; and we hereby authorize and request the Commissioner of Patents to issue all United States patents granted for said Invention to said Assignee, its successors and assigns, of the entire right, title, and interest in and to the same, for his sole use and behoof; and for the use and behoof of his legal representatives, to the full end of the term for which said Patent may be granted, as

fully and entirely as the same would have been held by us had this assignment and sale not been made.
