### ASSIGNMENT

For good and valuable consideration, the receipt of which is hereby acknowledged, each of the undersigned, **Tristan VAUGHAN ("Inventor")** hereby sells, assigns, transfers, and sets over to **Cambridge Antibody Technology, Ltd. ("CaT")** having a place of business at Milstein Building, Granta Park, Cambridge CB1 6GH, United Kingdom, its successors, assigns and legal representatives, his entire right, title and interest, including the right to sue and collect for all past, present and future damages, for the United States of America, including all its territories and possessions, and all other countries,

- (a) in and to the invention(s) known as **ANTIBODIES THAT IMMUNOSPECIFICALLY BIND TO BLYS** for which an application for patent in the United States of America has been executed by the undersigned Inventor on even date herewith (also known as United States Application No. 11/054,515, filed **February 10, 2005**), in any and all applications thereon, in any and all Patent(s) therefor, and
- (b) in any and all applications that claim the benefit of the patent application listed above in part (a), including continuing (continuation, divisional) applications, reissues, extensions, renewals and reexaminations of the patent application or Patent therefor listed above in part (a), to the full extent of the term or terms for which patent is issued, and
- (c) in any and all inventions described in the patent application listed above in part (a), and in any and all forms of intellectual and industrial property protection derivable from such patent application, and that are derivable from any and all continuing applications, reissues, extensions, renewals, and examinations of such patent application, including, without limitation, patents, applications, utility models, inventor's certificates, and designs together with the right to file applications therefor; and including the right to claim the same priority rights from any previously filed applications under the International Agreement for the Protection of Industrial Property, or any other international agreement, or the domestic laws of the country in which any such application is filed, as may be applicable.

For further good and valuable consideration, the receipt of which is hereby acknowledged, **Cambridge Antibody Technology, Ltd. ("Assignor")** hereby sells, assigns and transfers to **Human Genome Sciences, Inc. ("Assignee")** having a place of business at **14200 Shady Grove Road, Rockville, MD 20850**, its successors, assigns and legal representatives, its entire right, title and interest for the United States and all other countries in and to all of the right, titles, and interests sold, assigned, transferred, and set over by the Inventor as set forth herein above.

The Inventor and Cambridge Antibody Technology, Ltd. each further agrees that Assignee may apply for and receive patent(s) for said invention(s) in its own name; and agrees to execute all papers necessary in connection with said application(s) and any continuing application(s) (continuation, divisional, or continuation-in-part), substitutes, renewals, reissues, reexaminations, extensions, and all other patent applications on all such invention(s), including all rightful oaths, declarations, powers of attorney and other papers; and agrees to execute separate assignments in connection with such application(s) as the Assignee may deem necessary and expedient; and agrees to communicate to Assignee, its successors, assigns, and representatives all facts known to the undersigned relating to said invention(s) and the history thereof; and agrees to cooperate fully and completely with Assignee, its successors, assigns, and representatives in securing, maintaining, and enforcing proper patent protection for said invention(s) and for vesting title to said invention(s) and all patent applications and all patents on said invention(s) in Assignee, its successors, assigns and representatives.

The Inventor and Cambridge Antibody Technology, Ltd. each agrees to execute all papers necessary in connection with any interference that may be declared or litigation that may be instituted concerning the application(s) or patent(s) referred to above and to cooperate fully and completely with the Assignee, its successors, assigns, and representatives in obtaining evidence and going forward with such interference or litigation, including providing testimonial evidence.

The Inventor and Cambridge Antibody Technology, Ltd. each hereby represents and warrants to Assignee, its successors, assigns and representatives that no assignment, grant, mortgage, license or other right or agreement affecting the rights and property herein conveyed has been or will be made to others by the undersigned and that full right to convey the same as expressed herein is possessed by the undersigned.

The Inventor and Cambridge Antibody Technology, Ltd. each hereby grants the power to the Practitioners at Customer Number 22195 to insert on this Assignment any further identification which may be necessary or desirable in order to comply with the rules of the United States Patent and Trademark Office for recordation of this document.

IN WITNESS WHEREOF, this Assignment is executed by the undersigned on the date(s) opposite their signature(s):
