PATENT SECURITY AGREEMENT, dated as of April 6, 2005 among STILE U.S. ACQUISITION CORP. (the "Borrower"), the entities listed on Schedule I hereto (the "Subsidiary Grantors"; the Borrower and the Subsidiary Guarantors, collectively, the "Grantors") and THE BANK OF NOVA SCOTIA, as Collateral Agent (the "Collateral Agent").

Reference is made to the US Security Agreement dated as of April 6, 2005 (as amended, supplemented or otherwise modified from time to time, the "US Security Agreement"), among the Borrower, the other Grantors named therein and the Collateral Agent. The Lenders have agreed to extend credit to the Borrower subject to the terms and conditions set forth in the Credit Agreement dated as of April 6, 2005 (as amended, supplemented or otherwise modified from time to time (the "Credit Agreement")). The obligations of the Lenders to extend such credit are conditioned upon, among other things, the execution and delivery of this Agreement. The Subsidiary Grantors are affiliates of the Borrower, will derive substantial benefits from the extension of credit to the Borrower pursuant to the Credit Agreement and are willing to execute and deliver this Agreement in order to induce the Lenders to extend such credit. Accordingly, the parties hereto agree as follows:

SECTION 1. Terms. Capitalized terms used in this Agreement and not otherwise defined herein have the meanings specified in the US Security Agreement. The rules of construction specified in the US Security Agreement also apply to this Agreement (with all references in any such subsections to "this Security Agreement" being deemed to be references to this Agreement).

SECTION 2. Grant of Security Interest. As security for the payment or performance, as the case may be, in full of the Obligations, each Grantor, pursuant to the US Security Agreement, did and hereby does grant to the Collateral Agent, its successors and assigns, for the benefit of the Secured Parties, a continuing security interest in, and during the continuance of an Event of Default assigns, transfers and conveys to the Agent for the benefit of the Agent and the Lenders to secure payment, performance and observance of the Obligations, all right, title or interest in or to any and all of the following assets and properties now owned or at any time hereafter acquired by such Grantor or in which such Grantor now has or at any time in the future may acquire any right, title or interest (collectively, the "Patent Collateral"):

(a) all letters patent of the United States or the equivalent thereof in any other country, all registrations and recordings thereof, and all applications for letters patent of the United States or the equivalent thereof in any other country, including registrations, recordings and pending applications in the United States Patent and Trademark Office or any similar offices in any other country, including, without limitation, those listed on Schedule II (the "Patents"), and all reissues, continuations, divisions, continuations-in-part, renewals or extensions thereof, and the inventions disclosed or claimed therein, including the right to make, use and/or sell the inventions disclosed or claimed therein and including any and all causes of action that may exist by reason of violation thereof and any and all damages arising from past, present and future violations thereof.
