ASSIGNMENT

STS ATL Corporation of Atlanta, Georgia is the owner of the entire right title and intent in and to the invention related to method of forming an opening or cavity in a substrate for receiving an electronic component and U.S. patent serial No.10/204,154 filed March 24, 2003 by virtue of an assignment for the inventor John Gregory recorded March 24, 2003 at Reel/Frame No. 014092/0412 in the United Stated Patent and Trademark office.

For good and valuable consideration, the receipt and sufficiency of which are hereby acknowledged, STS ATL Corporation has sold and assigned, and by these presents hereby sells and assigns, unto:

INTRAGLOBAL CORPORATION a Georgia Corporation having a place of business at 625 C, Sims Industrial Boulevard, Alpharetta, Georgia 30004

(hereinafter ASSIGNEE) all right; title and interest for the United States, territories and possessions in and to the invention relating to:

METHOD OF FORMING AN OPENING OR CAVITY IN A SUBSTRATE FOR RECEIVING AN ELECTRONIC COMPONENT

as set forth in United States Patent Application Serial No. 10/204,154 filed: March 24, 2003 in and to said United States Patent Application including any and all divisions or continuations thereof and in and to any and all Letters Patent of the United States, which may issue on any such application or for said invention, including any and all reissues or extensions thereof, to be held and enjoyed by said ASSIGNEE, its successors, legal representatives and assigns to the full end of the term or terms for which any and all such Letters patent may be granted as fully and entirely as would have been held and enjoyed by STS ATL Corporation had this Assignment not been made and all applications for industrial property protection, including, without limitation, all applications for patents, utility models, and designs which may hereafter be filed for said invention in any country or countries foreign to the United States, together with the right to file such applications and the right to claim for the same the priority rights derived from said United States application under the Patent Laws of the United States, the International Convention for the Protection of Industrial Property, or any other international agreement or the domestic laws of the country in which any such application is filed, as may be applicable; and all forms of industrial property protection, including, without limitation, patents, utility models, inventors' certificates and designs which may be granted for said invention in any country or countries foreign to the United States and all extensions, renewals and reissues thereof.

STS ATL Corporation hereby authorizes and requests the Commissioner of Patents and Trademarks to issue any and all such Letters patent to said ASSIGNEE, its successors or assigns in accordance herewith.
STS ATL Corporation warrants and covenants that it has the full and unencumbered right to sell and assign the interests herein sold and assigned and that it has not executed and will not execute any document or instrument in conflict herewith.

STS ATL Corporation further covenants and agrees it will communicate to said ASSIGNEE, its successors, legal representatives or assigns all information known to it relating to said invention or patent application and that it will execute and deliver any papers, make all rightful oaths, testify in any legal proceedings and perform all other lawful acts deemed necessary or desirable by said ASSIGNEE, its successors, legal representatives or assigns to perfect title to said invention, to said application including divisions and continuations thereof and to any and all Letters Patent which may be granted therefor or thereon, including reissues or extensions, in said ASSIGNEE, its successors, or assigns or to assist said ASSIGNEE, its successors, legal representatives or assigns in obtaining, reissuing or enforcing Letters Patent of the United States for said invention.

The undersigned hereby grants to the firm of FLEIT KAIN GIBBONS GUTMAN & BONGINI P.L. the power to insert into this Assignment any further identification, which may be necessary or desirable to comply with the rules of the U.S. Patent and Trademark office for recordation of this Assignment.
