ASSIGNMENT AGREEMENT

In consideration of good and valuable consideration, the receipt and sufficiency of which is hereby acknowledged, Paul Brooks, an individual having an address of 34 Greville Street, Chatswood, New South Wales 2067, Australia; Allan Bruce Waugh, an individual having an address of Box 1307, Goulburn, New South Wales 2580, Australia; Keith Norman Clark, an individual having an address of 10 Nicholii Place, Kenthurst, New South Wales 2156, Australia; and Stephen Brian Weir, an individual having an address of 14 Algona Road, Charlestown, New South Wales 2290, Australia (hereinafter "Assignors") hereby assign, transfer and convey to UCC Energy Pty Limited, an entity created and existing under and by virtue of the laws of Australia, and having a principal place of business at Level 14, 213 Miller Street, North Sydney, New South Wales 2060, Australia, its successors, legal representatives, and assigns (hereinafter "Assignee"), the Assignors' entire right, title and interest in and to the invention for a PROCESS FOR DEMINERALISING COAL; in and to the application filed on the 28th day of April, 2005, and assigned Application No. 10/533,192, which is a national phase application of International Application No. PCT/AU03/001409, which claims priority to Australian Application Nos. 2002952315 and 2002952446; in and to all patents to be issued pursuant to said application and any divisionals, continuations, continuations-in-part, extensions, renewals, and reissues thereof; and in and to all applications for patents or similar legal protection which may hereafter be filed for said invention in any country, all patents or similar legal protection which may be granted for said invention in any country and all extensions, renewals and reissues thereof or legal equivalent thereof.

Assignors hereby authorize and request the Director of Patents and Trademarks of the United States, and any official of any other country whose duty it is to

issue patents or similar legal protection on said applications, to issue patents or similar legal protection for said invention to Assignee, the same to be held by Assignee for its own use and benefit, to the full end of the term for which said patents or similar legal protection are or may be granted, as fully and entirely as the same would have been held and enjoyed by Assignors had this assignment not been made.

Assignors hereby further agree, upon the request of Assignee, to execute any and all applications for divisionals, continuations and/or continuations-in-part for said invention or improvements and any supplemental oath or declaration relating thereto, and any applications for the reissue or extension of any patent that may be granted upon said applications that Assignee may deem necessary or expedient. Assignors further agree that in the event any said application, or patent issued thereon, becomes involved in an interference, upon request of Assignee, Assignors will cooperate to the best of their ability with Assignee in preparing the preliminary statement and giving and producing evidence in support thereof. Assignors hereby agree to perform, upon such request, any and all affirmative acts to obtain said patents or similar legal protection, and vest all rights therein in Assignee as fully and entirely as the same would have been held and enjoyed by Assignors if this assignment had not been made.

Assignors hereby covenant and warrant that as of the date hereof it they are the true and lawful owners of the entire, right, title and interest in said invention, applications, and patents which may issue pursuant thereto, that they have the full right and power to convey the same, that the same are free and clear of all liens, charges and encumbrances whatsoever, and that they have not executed and will not execute any agreement in conflict herewith.
