ASSIGNMENT
(Contractor Employee)

(For use of this form, see AR 27-60; the proponent agency is OTJAG)

Inventor(s): Tracy A. Conklin

Contractor: Camber Corporation Contract No.: DAAH01-00-D-0014

Title of Invention: Swashplate Seal Assembly

*Date Declaration Executed: May 17, 2005

*Application Serial. No. 11/134596 *Filing Date: May 18, 2005

The undersigned inventor(s), in recognition of his (their) obligation as employee(s) of the Contractor** to assign inventions to the Contractor, and pursuant to the obligations of the Contractor to the Government under the above contract, hereby assign(s) to the United States of America, as represented by the Secretary of the Army, the entire right, title, and interest in and to each invention disclosed and claimed in the above U.S. patent application, and any substitution, division, continuation-in-part, or continuation of such patent application, subject to the reservation of a license to the Contractor in accordance with FAR §52.227-11 (June 1997).

A license reserved to the Contractor shall extend to the Contractor's domestic subsidiary and affiliate companies, if any, within the corporate structure of which the Contractor is a part, and shall include the right to grant sublicenses of the same scope to the extent the Contractor was legally obligated to do so at the time the contract was awarded. The license shall be transferable only with the approval of the Army, except when transferred to the successor of that part of the Contractor's business to which such invention pertains.

The inventor(s) further agree(s) to assist the Contractor, and the Government, upon request, by furnishing any available information and documents, performing all acts, and doing all things which may be reasonably necessary to make this assignment effective.

The Contractor joins in and agrees to the foregoing assignment, and except for the above reservation of a license, relinquishes and assigns the entire right, title and interest in and to such inventions, and further agrees to furnish to the Government, upon request, any available information and documents necessary for the preparation and prosecution of the above-identified application for patent (including prosecution and settlement of interferences), and of any substitution, division, continuation-in-part, or continuation of such a patent application and of any application for reissue of any patent resulting from such an application.
