ASSIGNMENT

Whereas, we (the "Assignors") have invented certain new and useful improvements in an invention for which I am filing an application for United States Letters Patent concurrently herewith which has a title of

COMPOSITION FOR WATER-REMOVABLE INK

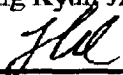

And whereas, ARTECH PLUS CO., LTD. (the "Assignee"), a company duly organized and existing under the laws of Republic of Korea and having a place of business at 7Block-9 Banwolgongdan, 405 Mognae-dong, Ansan-si, Gyeonggi-do 425-100, Republic of Korea is desirous of acquiring the entire right, title and interest in, to and under said invention and said patent application, any continuing applications, continuations-in-part, divisional applications, refiled or reissued applications made in the United States of America which may result from said invention and information disclosed in said application, and any and all Letters Patent of the United States which may be issued therefrom;

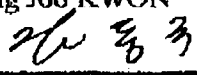

Now, therefore, for and in consideration of the sum of one US dollar (\$1.00) or the equivalent and other good and valuable consideration, the receipt of which is hereby acknowledged, we the Assignors, do hereby sell, assign and transfer to the Assignee the entire and undivided right, title and interest in and to my invention, said application for letters patent, the invention therein described, and all rights appurtenant thereto and in all our applications related thereto, including each of the following: the right to apply for any letters patent for said invention in the United States of America, including all divisional, renewal, substitute and continuation applications based in whole or in part upon said invention or upon said application or related thereto; any and all letters patent that may issue thereon in the United States and any and all reissues, extensions, renewals, divisions, or continuations of letters patent granted for said inventions or upon said applications, to the full end of the term or terms for which said letters patent may be issued; and every priority or other right accorded by every international convention, treaty or agreement that is or may be predicated upon or arise from said invention, application and other applications or letters patent therefore, all to be held and enjoyed by the Assignee, its successors and assigns, all the same as we would have held and enjoyed had this Assignment not been made.

We hereby request and authorize the Commissioner of Patents and Trademarks of the United States to grant, issue and: transfer any letters patent for said invention to the Assignee, as assignee of the entire right, title and interest therein, in accordance with this instrument of assignment.

We hereby represent and warrant that there are no outstanding rights or interest inconsistent with the rights and interests granted herein, we covenant that we will not execute,

executors, administrators and legal representatives to execute and deliver to the Assignee, its successors and assigns, any further documents or instruments and to perform any and all further acts that may be deemed necessary to enable it, its successors and assigns to file applications for letters patent for said invention and to enable such title to be recorded in the United States so that any patent issued thereon shall be issued to the Assignee, its successors and assigns; and I further covenant and agree, for myself and my executors, administrators and legal representatives, that I and they will, upon request, communicate to the Assignee, its successors and assigns, any facts relating to said invention and the history thereof, known to me or them and that I and they will testify as to the same in any proceeding, interference or litigation when requested to do so by the Assignee, its successors and assigns.
