ASSIGNMENT

WHEREAS, I, Richard C. Hagel, am the sole inventor of "FRAME WITH INTEGRAL ENVIRONMENT RESISTANT MEMBERS" application for United States Letters Patent which is executed of even date herewith; and

WHEREAS, William H. Crouse and Ronald P. Canfield are each desirous of acquiring an undivided one-third interest in and to the aforesaid invention throughout the world, and an undivided one-third interest in, to and under any and all Letters Patent of the United States and all other countries throughout the world;

NOW, THEREFORE, for good and valuable consideration, the receipt of which is hereby acknowledged, I hereby sell, assign, transfer and set over to William H. Crouse and Ronald P. Canfield, and to each of them severally, one-third of the right, title and interest in and to the said invention throughout the world, and said application for U.S. Letters Patent, and any and all divisions, continuations, and reissues thereof; and any and all Letters Patent of the United States and foreign countries which may be granted therefor, the same to be held and enjoyed by William H. Crouse and Ronald P. Canfield for their own use and benefit, unless otherwise agreed, and for the use and benefit of their successors, assigns, or other legal representatives, to the end of the term or terms for which said Letters Patent of the United States or foreign countries are or may be granted or reissued, as fully and entirely as the same would have been held and enjoyed by me if this Assignment and sale had not been made.

And I hereby authorize and request the Commissioner of Patents and Trademarks to issue any and all Letters Patent of the United States on said invention or resulting from said application and from any and all divisions, continuations, and reissues thereof, to William H. Crouse, Ronald P. Canfield and myself, each being owners of an undivided one-third interest, and hereby covenant that I have the full right to convey the entire two-thirds interest herein assigned, and that I have not executed and will not execute any agreement in conflict herewith.

And I further hereby covenant and agree that I will, at any time, upon request, execute and deliver any and all papers that may be necessary or desirable to perfect the title of said invention and to such Letters Patent as may be granted therefor, to William H. Crouse and Ronald P. Canfield, their successors, assigns, or other legal representatives and that if William H. Crouse and Ronald P. Canfield, their successors, assigns or other legal representatives shall desire to file any divisional or continuation applications or to secure a reissue of such Letters Patent, or to file a disclaimer relating thereto, I will upon request, sign all papers, make all rightful oaths and do all lawful acts requisite

for the filing of such divisional or continuation application, or such application for reissue and the procuring thereof, and for the filing of such disclaimer, without further compensation but at the expense of said assignees, their successors, or other legal representatives.

And I do further covenant and agree that I will, at any time upon request, communicate to William H. Crouse and Ronald P. Canfield, their successors, assigns or other legal representatives, such facts relating to said invention and Letters Patent or the file history thereof as may be known to me, and testify as to the same in any interference or other litigation when requested so to do, without further compensation but at the expense of said assignee, their successors, or other legal representatives.
