PATENT FIRST LIEN SECURITY AGREEMENT

This PATENT SECURITY AGREEMENT (as may be amended, restated, supplemented or otherwise modified from time to time, this "Patent Security Agreement"), dated as of December 5, 2005, by DAY INTERNATIONAL, INC. (the "Borrower"), DAY INTERNATIONAL GROUP, INC. and CERTAIN SUBSIDIARIES OF DAY INTERNATIONAL, INC., as Guarantors (collectively, the "Grantors"), in favor of GOLDMAN SACHS CREDIT PARTNERS L.P., as administrative agent (in such capacity, as the "Administrative Agent") for the benefit of the banks, financial institutions and other entities (the "Lenders") from time to time parties to the Credit and Guarantee Agreement dated as of December 5, 2005 (as amended, supplemented or otherwise modified from time to time, the "Credit Agreement").

WITNESSETH:

WHEREAS, DAY INTERNATIONAL, INC., (the "Borrower"), has entered into a Credit Agreement, dated as of December 5, 2005, with the banks and other financial institutions and entities from time to time party thereto (the "Lenders"), GOLDMAN SACHS CREDIT PARTNERS L.P., as sole lead arranger and sole syndication agent and GOLDMAN SACHS CREDIT PARTNERS L.P., as administrative agent and collateral agent (in such capacity, the "Administrative and Collateral Agent"), JPMORGAN CHASE BANK, N.A. and PNC BANK NATIONAL ASSOCIATION, as joint documentation agents (in such capacity, the "Documentation Agents").

WHEREAS, it is a condition precedent to the obligation of the Lenders to make their respective extensions of credit to the Borrower under the Credit Agreement that the Borrower and Grantors shall have executed and delivered that certain First Lien Pledge and Security Agreement, dated as of December 5, 2005, in favor of the Administrative Agent (as amended, supplemented, replaced or otherwise modified from time to time, the "Pledge and Security Agreement") for the ratable benefit of the Secured Parties (as defined in the Pledge and Security Agreement).

WHEREAS, under the terms of the Pledge and Security Agreement, the Grantors have granted a security interest in certain property, including, without limitation, certain Intellectual Property of the Grantors, including all successors and assigns, to the Administrative Agent for the ratable benefit of the Secured Parties and, upon the payment in full of all amounts owed to the Secured Parties, has agreed as a condition thereof to execute this Patent Security Agreement for recording with the United States Patent and Trademark Office and other applicable Governmental Authorities.

WHEREAS, this Agreement is supplemental to the provisions contained in the Pledge and Security Agreement and the Credit Agreement and, in the event of an inconsistency among them, the Credit Agreement shall control over the Pledge and Security Agreement and the Pledge and Security Agreement shall control over this Agreement.

NOW, THEREFORE, in consideration of the promises and mutual covenants herein contained and for other good and valuable consideration, the receipt and sufficiency of which are hereby acknowledged, Grantors hereby agree as follows:

SECTION 1. DEFINED TERMS. All capitalized terms used but not otherwise defined herein have the meanings given to them in Pledge and Security Agreement, and, if not therein defined, in the Credit Agreement.

SECTION 2. (1) GRANT OF SECURITY INTEREST IN PATENT COLLATERAL. Grantors hereby grant to the Administrative Agent, for the benefit of the Secured Parties, a security interest in and continuing lien on all of Grantors' right, title and interest in, to and under the following, whether now owned or existing or hereafter acquired or arising and wherever located (collectively, the "Patent Collateral"):

(a) all United States and foreign patents and certificates of invention, or similar industrial property rights, and applications for any of the foregoing (collectively, "Patents"), including, but not limited to each patent and patent application referred to on Schedule I hereto (as such schedule may be amended or supplemented from time to time);

(b) all agreements (whether or not in writing) providing for the granting of any right to manufacture, use or sell any invention covered in whole or in part by any Patents, whether Grantor(s) is licensee or licensor thereunder;

(c) all provisionals, reissues, divisions, continuations, continuations-in-part, extensions, renewals, and reexaminations thereof;

(d) all rights corresponding thereto throughout the world;

(e) all inventions and improvements described therein;

(f) all rights to sue for past, present and future infringements thereof;

(g) all licenses, claims, damages, and proceeds of suit arising therefrom;

(h) all Proceeds of the foregoing, including, without limitation, licenses, royalties, income, payments, claims, damages, and proceeds of suit; and

(i) any and all past, present or future rights in to and associated with the Patents and other rights of inventions throughout the world, whether arising under federal law, state law, common law, foreign law or otherwise.

(2) The foregoing security interest shall terminate upon termination of the Pledge and Security Agreement and full and final payment of the Obligations of the Grantor(s) thereunder. Upon termination of this Agreement, at the sole expense of the Grantor(s), the Collateral Agent and/or the Secured Parties, as applicable, shall take such actions as may be necessary to release the Collateral Agent's and the Secured Parties' security interest in the Patent Collateral.

SECTION 3. PLEDGE AND SECURITY AGREEMENT. The security interests granted pursuant to this Patent Security Agreement are granted in conjunction with the security interests granted to the Administrative Agent, for the benefit of the Secured Parties, pursuant to the Pledge and Security Agreement. Grantors hereby acknowledge and affirm that the rights and remedies of Administrative Agent with respect to the security interest in the Patent Collateral made and granted hereby are more fully set forth in the Pledge and Security Agreement, the terms and provisions of which are incorporated by reference herein as if fully set forth herein. In the event that any provision of this Patent Security Agreement is deemed to conflict with the Pledge and Security Agreement, the provisions of the Pledge and Security Agreement shall control.

SECTION 4. APPLICABLE LAW. This Patent Security Agreement and the rights and obligations of the parties hereunder shall be governed by, and shall be construed and enforced in accordance with, the laws of the State of New York, without regard to its conflicts of law provisions (other than Section 5-1401 and Section 5-1402 of the New York General Obligation Laws).

SECTION 5. COUNTERPARTS. This Patent Security Agreement may be executed in any number of counterparts, each of which when so executed and delivered shall be deemed an original, but all such counterparts together shall constitute but one and the same instrument.
