ASSIGNMENT OF PATENT APPLICATION

I, the undersigned have agreed and hereby agree to assign to **Colorado vNet**, a Colorado limited liability company having principal offices at 255 East Sixth Street, Loveland, Colorado 80537 (hereinafter **Colorado vNet**), for good and valuable consideration, the receipt of which is hereby acknowledged, and do hereby sell, assign, and transfer to **Colorado vNet**, its successors and assigns, the entire right, title, and interest, including the right of priority, in, to, and under an application for Letters Patent of the United States entitled: "**Keypad For Building Automation**" of **Donald P. Aupperle, William T. Beierwaltes, Hugh P. Adamson, Dennis Clark, and Eric Rinard** filed on 11-15-2005, and assigned Serial No. 11/273,864, and the invention(s) and improvement(s) set forth therein, and any and all applications, continuations, continuations-in-part (C-I-Ps), divisionals, and renewals of and substitutes resulting from said application for said Letters Patent, and any and all Letters Patent of the United States and of countries foreign thereto which may be granted thereon or therefor; and any reissues, or re-examinations, or extensions of said Letters Patent.

I additionally authorize **Colorado vNet** to file applications in my name for Letters Patent in any country, to be held and enjoyed by **Colorado vNet**, its successors, assigns, nominees or legal representatives, to the full end of the term or terms for which said Letters Patent respectively may be granted, reissued or extended, as fully and entirely as the same would have been held and enjoyed by me had this assignment, sale, and transfer not been made;

AND I hereby covenant that I have full right to convey the entire interest herein assigned, and that I have not executed and will not execute any agreement in conflict herewith, and I further covenant and agree that I will, each time a request is made, and without undue delay, execute and deliver all such papers as may be necessary or desirable to perfect the title to said invention(s) or improvement(s), said applications and said Letters Patent(s), to **Colorado vNet**, its successors, assigns, nominees, or legal representatives, and I agree to communicate to **Colorado vNet**, or to its nominee, all known facts respecting said invention(s) or improvement(s), said application(s) and said Letters Patent(s), to testify in any legal proceedings, to sign all lawful papers, to execute all disclaimers and divisionals, continuations, C-I-Ps, reissue and foreign applications, to make all rightful oaths and declarations, and generally to do everything possible to aid **Colorado vNet**, its successors, assigns, nominees and legal representatives to obtain and enforce, for its or their own benefit, proper patent protection for said invention(s) or improvement(s) in any and all countries provided the expenses which may be incurred by me in lending such cooperation and assistance are paid by **Colorado vNet**.

AND I hereby authorize and request the Commissioner of Patents and Trademarks of the United States and any official of any country or countries foreign to the United States whose duty it is to issue patents on applications as aforesaid, to issue to **Colorado vNet**, as assignee of the entire right, title, and interest, any and all Letters Patent for said invention(s) or improvement(s), including any and all Letters Patent of the United States which may be issued and granted on or as a result of the application aforesaid, in accordance with the terms of this assignment.

I further authorize and direct Colorado vNet attorneys to insert the serial number and filing date of said application identified as set forth above as soon as the same shall have been made known to them by the United States Patent and Trademark Office.
