1. DEFINED TERMS. All capitalized terms used but not otherwise defined herein have the meanings given to them in the Security Agreement.

2. GRANT OF SECURITY INTEREST IN INTELLECTUAL PROPERTY COLLATERAL. (a) To secure the prompt and complete payment, when due, and performance and observance of all the Obligations, each Grantor hereby grants, assigns, conveys, mortgages, pledges, hypothecates and transfers to Agent, for itself and the benefit of the Lenders, a continuing first priority security interest in and Lien (as applicable) upon all of its right, title and interest in, to and under the following, whether presently existing or hereafter created or acquired

by or arising in favor of such Grantor and whether owned or consigned by or to, or licensed from or to, such Grantor (collectively, the "Intellectual Property Collateral"):

(i) all of its now owned and hereafter acquired or arising and filed patents and patent applications ("Patents"), including without limitation, each patent and application listed on Schedule I hereto;

(ii) all of its Patent Licenses to which it is a party including those referred to on Schedule I hereto;

(iii) all of its now owned and hereafter acquired or arising and filed trademarks, service marks, trademark or service mark registrations, trade names, and trademark and service mark applications ("Trademarks"), including without limitation, common law rights and each mark, registration and application listed on Schedule II hereto;

(iv) all of its Trademarks and Trademark Licenses to which it is a party including those referred to on Schedule II hereto;

(v) all reissues, continuations, divisions, renewals or extensions of the foregoing;

(vi) all goodwill of the business connected with the use of, and symbolized by, each Trademark, and each Trademark License; and

(vii) all products and proceeds of the foregoing, including, without limitation, any claim by such Grantor against third parties for past, present or future (A) infringement or dilution of any Intellectual Property Collateral, and (B) injury to the goodwill associated with any Intellectual Property Collateral.

(b) In addition, to secure the prompt and complete payment, performance and observance of the Obligations and in order to induce Agent and Lenders as aforesaid, each Grantor hereby grants to Agent, for itself and the benefit of Lenders, a right of setoff, against the property of such Grantor held by Agent or any Lender, consisting of property described above in Section 2(a) now or hereafter in the possession or custody of or in transit to Agent or any Lender, for any purpose, including safekeeping, collection or pledge, for the account of such Grantor, or as to which such Grantor may have any right or power.

3. REPRESENTATIONS AND WARRANTIES. Each Grantor, jointly and severally, represents and warrants that, as of the Closing Date, each Grantor owns or has rights to use all Intellectual Property necessary to continue to conduct its business as now conducted by it or proposed to be conducted by it. Each Trademark registered with, or that is the subject of an application with, the United States Patent and Trademark Office, or its foreign equivalents, as applicable, each Patent and each License is listed, together with application or registration numbers, as applicable, in Schedule I and Schedule II, respectively, hereto. Each Grantor, jointly and severally, represents and warrants that, except as set forth in Disclosure Schedule (3.15) to the Domestic Credit Agreement, all Patents and Trademarks which are necessary or material to the operations of such Grantor have been registered or are pending with the United States Patent

and Trademark Office or its foreign equivalents, as applicable. Each Patent granted by and each Trademark registered with or that is the subject of an application with the United States Patent and Trademark Office or its foreign equivalents is valid and enforceable, has not been adjudged invalid or unenforceable, in whole or in part, and is not at this time the subject of any challenge to its validity or enforceability except for arguments submitted by the United States Patent and Trademark Office, or its foreign equivalents in the ordinary course of prosecuting the patents or as set forth in Disclosure Schedule 3.15 to the Domestic Credit Agreement. Each Grantor conducts its business and affairs without infringement of or interference with any Intellectual Property of any other Person in any material respect. Except as set forth in Disclosure Schedule (3.15) to the Domestic Credit Agreement, no Grantor is aware of any infringement claim by any other Person with respect to any of the Intellectual Property Collateral. This Patent and Trademark Security Agreement is effective to create a valid and continuing security interest in and Lien on (as applicable) and, upon the filing hereof with the United States Patent and Trademark Office and the filing of appropriate financing statements listed on Schedule I to the Security Agreement, perfected security interests in favor of Agent in all of Grantors' Patents and Trademarks and such perfected security interests are enforceable as such as against any and all creditors of, and purchasers from, Grantors. Upon filing of this Patent and Trademark Security Agreement with the United States Patent and Trademark Office within ninety (90) days of the creation of each security interest, as applicable and the filing of appropriate financing statements listed on Schedule I to the Security Agreement, all action necessary or otherwise requested by Agent to protect and perfect Agent's security interest in and Lien on (as applicable) Grantor's Patents and Trademarks shall have been duly taken.

The security interests granted pursuant to this Patent and Trademark Security Agreement are granted in conjunction with the security interest granted to Agent pursuant to the Security Agreement. In addition to any representations and warranties contained herein, each Grantor hereby acknowledges and affirms the representations and warranties made to Agent with respect to the Intellectual Property Collateral made in the Security Agreement, the terms and provisions of which are incorporated by reference herein as if fully set forth herein.

Notwithstanding anything to the contrary set forth in this Agreement or the Domestic Credit Agreement, the representations and warranties set forth in this Section shall be deemed made by the Grantors on and after the date thirty (30) days after the Closing, and not prior to that date. On or before the date thirty (3) days following the Closing Date, Grantors shall deliver to Agent modifications to each of the Schedules referred to in this Section 3 which shall be attached to this Agreement and made a part hereof, each of which shall be true, accurate and complete as to all of the information required to be set forth therein.

4. COVENANTS. The security interests granted pursuant to this Patent and Trademark Security Agreement are granted in conjunction with the security interests granted to Agent pursuant to the Security Agreement. In addition to the covenants contained herein, each Grantor hereby acknowledges and affirms the covenants of such Grantor contained in the Security Agreement with respect to the Intellectual Property Collateral, the terms and provisions of which are incorporated herein as if fully set forth herein. Grantors shall have the duty to prosecute diligently any applications to register any of the Intellectual Property Collateral, and to do any and all acts which are reasonably necessary or desirable to preserve and maintain all

rights in the Intellectual Property Collateral. Any expenses incurred in connection with the Intellectual Property Collateral shall be borne solely by Grantors. Grantors shall not abandon any Intellectual Property Collateral without the prior written consent of Lenders.

5. SECURITY AGREEMENT. The security interests granted pursuant to this Patent and Trademark Security Agreement are granted in conjunction with the security interests granted to Agent pursuant to the Security Agreement. Each Grantor hereby acknowledges and affirms that the rights and remedies of Agent with respect to the security interest in the Intellectual Property Collateral made and granted hereby are more fully set forth in the Security Agreement, the terms and provisions of which are incorporated by reference herein as if fully set forth herein.

6. REINSTATEMENT. This Patent and Trademark Security Agreement shall remain in full force and effect and continue to be effective should any petition be filed by or against any Grantor for liquidation or reorganization, should any Grantor become insolvent or make an assignment for the benefit of any creditor or creditors or should a receiver or trustee be appointed for all or any significant part of any Grantor's assets, and shall continue to be effective or be reinstated, as the case may be, if at any time payment and performance of the Obligations, or any part thereof, is, pursuant to applicable law, rescinded or reduced in amount, or must otherwise be restored or returned by any obligee of the Obligations, whether as a "voidable preference," "fraudulent conveyance," or otherwise, all as though such payment or performance had not been made. In the event that any payment, or any part thereof, is rescinded, reduced, restored or returned, the Obligations shall be reinstated and deemed reduced only by such amount paid and not so rescinded, reduced, restored or returned.

7. NOTICES. Whenever it is provided herein that any notice, demand, request, consent, approval, declaration or other communication shall or may be given to or served upon any of the parties by any other party, or whenever any of the parties desires to give or serve upon another any such communication with respect to this Patent and Trademark Security Agreement, each such notice, demand, request, consent, approval, declaration or other communication shall be in writing and shall be addressed to the party to be notified at the address set forth in Annex H to the Domestic Credit Agreement (or such other address as may be substituted by notice given in the manner required by Section 12.10 of the Domestic Credit Agreement), and given in the manner required by Section 12.10 of the Domestic Credit Agreement.

8. ADDITIONAL GRANTORS. The initial Grantors hereunder are the Grantors as are signatories hereto on the date hereof. From time to time subsequent to the date hereof, additional Persons may become parties hereto, as additional Grantors (each, an "Additional Grantor"), by executing a counterpart of this Patent and Trademark Security Agreement substantially in the form of Exhibit A attached hereto. Upon delivery of any such counterpart to Agent, notice of which is hereby waived by the Grantors, each Additional Grantor shall be a Grantor and shall be as fully a party hereto as if such Additional Grantor were an original signatory hereto. Each Grantor expressly agrees that its obligations arising hereunder shall not be affected or diminished by the addition or release of any other Grantor hereunder nor by any election of Agent not to cause any Grantor or any other Person to become an Additional

Grantor hereunder. This Patent and Trademark Security Agreement shall be fully effective as to any Grantor that is or becomes a party hereto regardless of whether any other Person becomes or fails to become or ceases to be a Grantor hereunder.

9. TERMINATION OF THIS SECURITY AGREEMENT. Subject to Section 6 hereof, this Patent and Trademark Security Agreement shall terminate upon the Termination Date. Upon the Grantor's request, the Agent and/or the Lenders shall within a reasonable time after any such termination execute and deliver to the Grantors such documents and instruments as are reasonably necessary to evidence such termination and release of the security interest granted herein on any applicable public record.

10. NO STRICT CONSTRUCTION. The parties hereto have participated jointly in the negotiation and drafting of this Patent and Trademark Security Agreement. In the event an ambiguity or question of intent or interpretation arises, this Patent and Trademark Security Agreement shall be construed as if drafted jointly by the parties hereto and no presumption or burden of proof shall arise favoring or disfavoring any party by virtue of the authorship of any provisions of this Patent and Trademark Security Agreement. This Patent and Trademark Security Agreement is to be read, construed and applied together with the Domestic Credit Agreement and the other Loan Documents which, taken together, set forth the complete understanding and agreement of Agent, Lenders and Grantors with respect to the matters referred to herein and therein. Except as otherwise specifically provided, if any provision contained in this Patent and Trademark Security Agreement or any other Loan Document, conflicts with any provision in the Domestic Credit Agreement, the provision in the Domestic Credit Agreement shall govern and control.

11. ADVICE OF COUNSEL. Each of the parties represents to each other party hereto that it has discussed this Patent and Trademark Security Agreement with its counsel.

12. REQUESTED RECORDATION. The Grantors authorize and request that the United States Patent and Trademark Office (and any state, foreign or other authority to which this Patent and Trademark Security Agreement is submitted) record this Patent and Trademark Security Agreement (and any corresponding or separate forms of such jurisdiction) in order to publicly reflect the interests of the Agent and the Lenders in the Intellectual Property Collateral.

13. GOVERNING LAW. THIS AGREEMENT AND THE RIGHTS AND OBLIGATIONS OF THE PARTIES HEREUNDER SHALL BE CONSTRUED IN ACCORDANCE WITH AND BE GOVERNED BY THE LAWS OF THE STATE OF NEW YORK, WITHOUT GIVING EFFECT TO PRINCIPLES OF CONFLICTS OF LAW, AND EACH PARTY EXPRESSLY WAIVES ANY OBJECTION IT MAY HAVE TO SUCH JURISDICTION OR THE CONVENIENCE OF SUCH FORUM.

14. POWER OF ATTORNEY. The Grantors hereby irrevocably grant to the Agent, for the ratable benefit of the Lenders, a power of attorney, to act as such Grantors' attorney-in-fact, with full authority in the name, place and stead of each such Grantor, from time to time in the Agent's discretion, to take any action and to execute any instrument that the Agent

may reasonably deem necessary or advisable to accomplish the purposes of this Patent and Trademark Security Agreement. This authority includes, without limitation, the following:

(a) To modify or amend (in the sole discretion of the Agent and the Lenders and without first obtaining such Grantors' approval thereof or signature thereto) Schedule I hereof, as appropriate and as otherwise permitted herein, to include references to any registered intellectual property (or application or license therefor) acquired by such Grantors after the execution hereof or to delete any reference to any Intellectual Property Collateral in which such Grantors no longer have or claim any right, title or interest; and

(b) To execute any document required to acknowledge, register or perfect the security interest of the Agent and the Lenders in any part of the Intellectual Property Collateral without the signature of such Grantors unless prohibited by applicable law.

The foregoing power of attorney is coupled with an interest and is irrevocable until the obligations secured hereby have been unconditionally and indefeasibly paid or performed in full and the Domestic Credit Agreement has been terminated, at which time the foregoing power of attorney shall also terminate.
