ASSIGNMENT

WHEREAS, the undersigned, Robert D. Rambo, a citizen of the United States of America, residing at Sellersville, PA, (hereinafter referred to as "ASSIGNOR") is the sole and exclusive owner of record of certain United States and foreign patents and applications for patent set forth in the schedule attached hereto as Appendix A, (hereinafter referred to as "Patents and Applications") and also of all of the inventions described and claimed in said Patents and Applications;

WHEREAS, Medical Creative Technologies, Inc., a Pennsylvania corporation, having a mailing address of 100 Emlen Way, Suite 108, Telford, PA 18969, (hereinafter referred to as "ASSIGNEE") is desirous of acquiring the entire right, title and interest in and to the inventions or improvements and in and to said Patents and Applications;

NOW, THEREFORE, for good and valuable consideration, the receipt and sufficiency of which are hereby freely acknowledged, and intending to be legally bound, the ASSIGNOR has sold, assigned, transferred and set over, and by these presents does hereby sell, assign, transfer and set over, to said ASSIGNEE, the entire right, title and interest in and to said inventions or improvements and said Patents and Applications and all extensions, continuations, divisions, and renewals of and substitutes for said Patents and Applications which may be granted on or as a result thereof in the United States and its possessions and territories and in all other countries, and any reissue or reissues or extension or extensions of said Patents and Applications, the same to be held and enjoyed by said ASSIGNEE, its successors, assigns, nominees or legal representatives, to the full end of the term or terms for which said Patents and Applications respectively may be granted, reissued or extended, as fully and entirely as the same would have been held and enjoyed by ASSIGNOR had this assignment, sale and transfer not been made.

AND the undersigned ASSIGNOR hereby covenants that he has full right to convey the entire interest herein assigned, and that he has not executed and will not execute any agreement in conflict herewith, and further covenants and agrees that he will each time request is made and without undue delay, execute and deliver all such papers as may be necessary or desirable to perfect the title to said inventions or improvements, and said Patents and Applications in said ASSIGNEE, its successors, assigns, nominees, or legal representatives, and agrees to communicate to said ASSIGNEE or to its nominee all known facts respecting said inventions or improvements, and said Patents and Applications, to testify in any legal proceedings, to sign all lawful papers, to execute all disclaimers and divisional, continuing, and reissue applications, to make all rightful oaths, and generally to do everything possible to aid said ASSIGNEE, its successors, assigns, nominees and legal representatives to obtain and enforce for its own benefit proper patent protection for said inventions or improvements in the United States and its possessions and territories and in all other countries;

AND ASSIGNOR hereby authorizes and requests the Commissioner of Patents and Trademarks of the United States to issue to said ASSIGNEE, the entire right, title and interest, in and to any and all Patents and Applications for said inventions or improvements, including any and all Letters Patent of the United States which may be issued and granted on or as a result of the Patents and Applications aforesaid, in accordance with the terms of this assignment.

IN WITNESS WHEREOF, ASSIGNOR hereunto sets his hand and seal, intending to be legally bound.

Date: 3-29-2006
