ASSIGNMENT

WHEREAS, Jonathan D. Weiss of Albuquerque, New Mexico has made an invention relating to "**Side-Emitting Fiber Optic Position Sensor**" in the course of the work authorized by Contract DE-AC04-94AL85000 between SANDIA CORPORATION and the UNITED STATES DEPARTMENT OF ENERGY, said invention being disclosed and claimed in a utility application for United States patent identified as DOE Docket No. **S-106,283** duly executed by said inventor;

WHEREAS Inventor, in consideration of employment by Sandia Corporation, has agreed, among other things, to assign to Sandia Corporation, its successors and assigns, all rights to inventions, discoveries, or improvements made or conceived in the course of his/her employment; and

WHEREAS, the Government of the United States, as represented by the U.S. Department of Energy has granted a waiver of Government rights in the above-identified invention to Sandia Corporation under Class Waiver W(C)93-012; and

THEREFORE, Inventor hereby sells, assigns, and transfers unto Sandia Corporation his/her entire right, title, and interest in and to said invention and in and to all resulting patents, wherever they may be granted in the USA or foreign countries, as well as reissues or extensions of said patents, domestic and foreign.

Inventor covenants with Sandia Corporation that, except for the rights, if any, of the Government, his/her interest in the rights and property herein conveyed is free and clear of any encumbrance and that he/she has full right to convey the same as herein expressed. He/she agrees, at the request of Sandia Corporation, to make, execute, and deliver to Sandia Corporation, the Government, or other party prosecuting patent applications on this invention, any and all papers, documents, affidavits, applications, statements or other instruments relating to said invention, take all rightful oaths and do all acts as may reasonably be required of him/her in or incident to the prosecution of any or all applications on said invention or in the adjustment or settlement of any interferences or other actions or proceedings that said applications or patents thereon may encounter or in which they may become involved.
