Pursuant to Order and Judgment entered herein in the Office of the County  
Clerk, Bronx County, on December 9, 2005, Chromatics Color Sciences International,  
Inc. ("CCSI"), a New York corporation, hereby assigns to appointed Receiver Marshall  
E. Bloomfield, Esq. ("Receiver") its entire right, title and interest in and to all of its

patents, intellectual property and good will ("the Property") to be held by the Receiver in trust pursuant to the terms of the Interim Financing Agreement ("IFA") filed herein, including an auction sale of the Property at which the Petitioners – Judgment Creditors and the Respondents – Judgment Creditors may collectively bid their respective Judgments. In the event that the collective bid of the Petitioners – Judgment Creditors and the Respondents – Judgment Creditors is the highest bid at the auction sale of the Property, the Receiver will assign the Property to those Judgment Creditors who collectively bid pursuant to the terms of the IFA. In the event that there is a bid higher than the collective bid made by the Judgment Creditors pursuant to the terms of the IFA, the Receiver will assign the Property to that highest bidder and disburse the proceeds pursuant to the terms of the IFA.

The Property so assigned consists of:

1. CCSI's entire right, title and interest in the United States and in all countries throughout the world in and to any and all patents and patent applications (including without limitation those patent applications and patents identified in attachments A and B), including any renewals, revivals, reissues, reexaminations, extensions, continuations and divisions thereof, and any substitute applications therefor and including the right to sue for and collect damages or other compensation for past infringement thereof; and CCSI hereby authorizes competent authorities to grant and issue any and all such patents to the assignee of the entire interest therein;
2. CCSI's entire right, title and interest in the United States and in all countries throughout the world in and to any and all copyrights, trademarks, applications to register trademarks and registered trademarks and the goodwill represented by those trademarks (including without limitation those trademarks identified in attachment C), together with the right to sue for and to collect damages or other compensation for past infringement, dilution or misuse of those trademarks; and
3. CCSI's entire right, title and interest in the United States and in all countries throughout the world in and to any and all inventions, discoveries, trade secrets and know-how which are disclosed in patents and patent applications as delineated in paragraph 1 above and which are disclosed in copyrights, written and electronic media documentation, prototype and commercial instrumentation, and research and development

materials, equipment and documentation (collectively "Other Intellectual Property") such other Intellectual Property being identified in attachment D.
