OF AMERICA

I hereby declare that I am a joint inventor of the inventions relating to INTERSTITIAL MICROWAVE SYSTEM AND METHOD FOR THERMAL TREATMENT OF DISEASES described in an application for Patent of the United States of America executed by me on even date with my execution of this Assignment Agreement.

For valuable consideration received, I hereby sell, assign and transfer to MMTC, Inc., its successors, and assigns, my right, title and interest, for all countries in and to said inventions, and all the rights and privileges under any and all Patent that may be granted therefor, and any divisions, continuations, reissues and extensions thereof.

I agree that, when requested, I will without charge to said MMTC, Inc., but at its expense, sign all paper, take all oaths, make all rightful declarations and do all acts which may be necessary, desirable or convenient for securing and maintaining patents or other forms of protection for said inventions in any and all countries and for vesting title thereto corporation, its successors, assigns or nominees.

I agree that I will communicate to said corporation or its representatives any facts known to me respecting said inventions and when requested by said corporation and at its expense will testify in any legal proceedings, and generally do everything possible to aid said corporation, its successor, assigns and legal representatives or nominees, to obtain or enforce protection for said inventions in any and all countries.

I authorize and empower said corporation, its successors, assigns or nominees, to make application for patent or other form of protection for said inventions in its or their own name, or in my name, in any and all countries and to invoke and claim for any application for patent or other form of protection for said inventions filed by it or them, the benefit of the right of priority provided by the International Convention for the Protection of Industrial Property, as amended, or by any convention may henceforth be substituted for it, and to invoke and claim such right of priority without further written or oral authorization from me.

I hereby consent that a copy of this assignment shall be deemed a full legal and formal equivalent of any assignment, consent to file or like document which may be required in any country for any purpose and more particularly in proof of the right of the said corporation or its successors, assigns or nominees to apply for patent or other proper protection for said inventions, and to claim the aforesaid benefits of the right of priority provided by the International Convention Protection of Industrial Property, as amended, or by any convention which may henceforth be substituted for it.

I covenant with MMTC, Inc., its successors, assigns, legal representatives, and nominees, that to the best of my knowledge the right, title and interest herein conveyed me are free and clear of any encumbrance, and that I have full right to convey the same as herein expressed.
