NOW, THEREFORE, for good and valuable consideration, the receipt and sufficiency of which is hereby acknowledged, ASSIGNOR agrees to assign and does hereby assign to ASSIGNEE the entire right, title, and interest throughout the world in and to each of the following:

A. The Invention, including without limitation any of ASSIGNOR'S improvements thereto, whether conceived and/or reduced to practice by ASSIGNOR alone or jointly with anyone else;

B. The Applications, including without limitation any of ASSIGNOR'S inventions that may be disclosed therein, and any other applications in which the Invention is disclosed; all provisional and nonprovisional applications relating to the Applications or claiming the benefit thereof that have been or may hereafter be filed by the ASSIGNEE in the United States or in any foreign country ("Related Applications"), including U.S. Provisional Application No. Application No. 60/653,717, filed February 16, 2005; U.S. Provisional Application No. 60/679,953, filed May 10, 2005; all continuations, divisionals, and continuations in part of the Applications and any such Related Applications; and all U.S. and foreign patents which may be granted on the Applications and the Related Applications, and all reissues, re-examinations, and extensions of such patents.

C. Those items of ASSIGNOR'S tangible property embodying or describing the Invention, including without limitation all documents, drawings, prototypes, models, test results, designs, materials, computer programs and data, and the like, which, if not presently in the possession of ASSIGNEE, will be delivered to ASSIGNEE immediately upon request.

D. All causes of action for infringement of or damage to all rights related to the Invention, the Applications, and/or the Related Applications, whether accruing before or after the execution of this Assignment Agreement, and all legal rights to enforce the same against third parties and to retain the entire proceeds therefrom.
