ASSIGNMENT OF PATENT RIGHTS

This Patent Assignment (this "Assignment") is made effective this 31st day of March, 2006, by and between Oakville Hong Kong Co., Ltd., a Hong Kong company ("Assignor"), and Inverness Medical Switzerland GmbH, a corporation organized and existing under the laws of Switzerland ("Assignee").

WHEREAS, Inverness Medical Innovations, Inc., a Delaware corporation ("IMI"); ACON Laboratories, Inc., a California corporation ("ACON Labs"), AZURE Institute, Inc., a California corporation ("Azure"), LBI Inc., a British Virgin Islands company ("LBI"), Oakville Hong Kong Co., Ltd., a Hong Kong company ("Oakville"), and Acon Biotech (Hangzhou) Co., Ltd., a wholly foreign owned enterprise established in the People's Republic of China ("ACON Bio") ("ACON Bio" and together with ACON Labs, Azure, LBI, and Oakville, "ACON" or the "Seller Entities") and Karsson Overseas Ltd., a British Virgin Islands and other affiliates of the Seller Entities have entered into an Acquisition Agreement, dated as of February 24, 2006 (the "Acquisition Agreement"), pursuant to which Seller Entities have sold and assigned to IMI and certain affiliates, including Assignee, certain of their assets and liabilities related to the business of developing, manufacturing marketing and/or selling lateral flow immunoassay products and directly related products, which includes the patents and patent applications listed on Schedule A attached hereto (collectively, the "Patents Rights");

WHEREAS, under the Acquisition Agreement, Assignor sold and assigned the Patent Rights to Assignee;

NOW, THEREFORE, to all whom it may concern be it known that for and in consideration of at least U.S. \$1,000.00, and other good and valuable consideration including consideration agreed upon between IMI and the Seller Entities in the Acquisition Agreement, the receipt and sufficiency of which is hereby acknowledged, Assignor does hereby sell, assign and transfer unto said Assignee, its successors, assigns, and legal representatives, Assignor's entire right, title and interest in and throughout the United States of America, its territories and all foreign countries, in and to the invention(s) described and/or claimed in said Patent Rights, together with Assignor's entire right, title and interest in and to the Patent Rights and such other patents as may issue thereon or claim priority under United States law or international convention, including but not limited to non-provisionals, continuations, divisionals, reissues, reexaminations, extensions, and substitutions of said patents and patent applications or such other patents, and any right, title and interest Assignor may have in applications to which said Patent Rights claim priority; said invention(s), patent applications and patents to be held and enjoyed by said Assignee for its own use and on behalf and for its successors, assigns and legal representatives, to the full end of the term for which said patents may be granted as fully and entirely as the same would have been held by Assignor had this assignment and sale not been made; Assignor hereby conveys all of its rights arising under or pursuant to any and all United States laws and international agreements, treaties or laws relating to the protection of industrial property by filing any such applications for patent, including but not limited to any cause(s) of action and damages accruing prior to this assignment. Assignor hereby acknowledges that this assignment, being of Assignor's entire right, title and interest in and to said invention(s),

applications and patents carries with it the right in Assignee to apply for and obtain from competent authorities in all countries of the world any and all patents by attorneys and agents of

Assignee's selection and the right to procure the grant of all patents to Assignee in its own name as assignee of Assignor's entire right, title and interest therein;

AND, Assignor hereby further agrees for itself and its successors, assigns, agents, and legal representatives to execute upon request any other lawful documents and likewise to perform any other lawful acts which may be deemed necessary to secure fully the aforesaid Patent Rights to said Assignee, its successors, assigns, and legal representatives, as well as to third parties at the request of Assignee including the execution of non-provisional, substitution, continuation, divisional, reissue, reexamination, or corresponding foreign or international patent applications, and generally do everything possible, to the extent allowable under United States laws, foreign laws and international agreements, treaties or laws relating to the protection of industrial property by filing any such applications for patent, to aid Assignee, its successors, assigns and legal representatives to obtain, record, maintain, and enforce full protection for the inventions in all countries, but in each instance at Assignee's expense;

AND, Assignor hereby further agrees to provide statements or testimony in any interference or other proceeding in which said Patent Rights or any patent application or patent directed thereto may be involved;

AND, Assignor does hereby authorize and request the Director of the United States Patent and Trademark Office and the empowered officials of all other governments to issue such Patent Rights or patents as shall be granted upon said Patent Rights, or applications based thereon, to said Assignee, its successors, assigns, or legal representatives.

Assignee and Assignor also agree that multiple copies of this Assignment of Patent Rights may be executed, each of which shall be deemed an original, and each of which shall be valid and binding upon Assignee and Assignor.
