ASSIGNMENT

WHEREAS, we, Gerard A. Morelli, an individual, of Beaverton, Oregon, and Morelli Engineering, an Oregon corporation, having its principal place of business in Beaverton, Oregon, have participated in work with FLIR Systems, Inc., an Oregon corporation, having its principal place of business in Wilsonville, Oregon, leading to the invention of certain improvements in a Gimbal System with Airflow, for which we are filing a U.S. patent application on or about the date hereinafter set forth, naming Bruce Ellison of Lake Oswego, Oregon, John J. Miller of Lake Oswego, Oregon, Gerard A. Morelli of Beaverton, Oregon, and Bruce A. Dickerson of Tigard, Oregon as inventors; and

WHEREAS, FLIR Systems, Inc. is desirous of acquiring our interests therein;

NOW, THEREFORE, for the sum of fifty dollars (\$50) each, and for other good and valuable consideration, the receipt and sufficiency of which hereby are acknowledged, we, Gerard A. Morelli and Morelli Engineering, have sold, assigned, and transferred, and do hereby sell, assign, and transfer, to FLIR Systems, Inc., its successors and assigns, all of our interests in the invention in the United States and its territorial possessions and in all foreign countries, and our entire right, title, and interest in and to any and all Letters Patent that may be granted therefor in the United States and its territorial possessions and in any and all foreign countries, and in and to any and all divisions, continuations, reissues, substitutions, and extensions thereof.

We hereby authorize and request the Patent Office officials in the United States and any and all foreign countries to issue any and all of such Letters Patent, when granted, to FLIR Systems, Inc., as the assignee of our entire right, title, and interest in and to the same, for the sole use of FLIR Systems, Inc., and its successors and assigns.

Further, we hereby covenant and agree to and with FLIR Systems, Inc., and its successors and assigns, at the time of execution and delivery of this Assignment, that we have good and full right and lawful authority to sell and convey our right, title, and interest in and to the invention and the above-identified patent application in the manner herein set forth.

Further, we agree that we will communicate to FLIR Systems, Inc., or its representatives, any facts known to us respecting the invention, and testify in any legal proceedings, sign all lawful papers, execute all divisional, continuation, reissue, substitution, and extension applications, execute all necessary assignment papers to cause any and all such Letters Patent to be issued to FLIR Systems, Inc., make all rightful oaths, and generally do everything possible to aid FLIR Systems, Inc., and its successors and assigns, to obtain and enforce proper protection for the invention in the United States and in any and all foreign countries.
