Declaration Relating Invention To Agreement To Assign

Sir:

I, **David A. Plettner**, declare that:

I am an employee of **Hewlett-Packard Company**, having a title of **Outsourcing Attorney**. I am a registered patent attorney with registration number 36,241. I hereby state that I am authorized to sign this Declaration and Power of Attorney on behalf of **Hewlett-Packard Company**.

I believe that **Ruby B. Lee**, a U.S. citizen having a residence and Post Office Address of 55 Etti Circle, Princeton, NJ 08540, is an original, first, and joint inventor of the subject matter which is claimed and for which a patent is sought on the invention entitled "Variable Reordering (Mux) Instructions for Parallel Table Lookups From Registers" the specification of which was filed on March 31, 2003 as U.S. Patent Application 10/403,785.

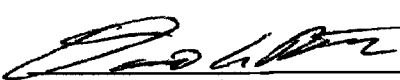

I further state that **Ruby B. Lee** was an employee of **Hewlett-Packard Company**, continuously from September 1, 1981, until her termination date of September 4, 1998. The invention was made during her period of employment by **Hewlett-Packard Company**, as indicated by the attached invention disclosure showing disclosure to **Hewlett-Packard Company** in September, 1997. She made no contribution to the invention after her termination date; in fact, she refused to cooperate in the review and filing of the application. The facts regarding non-cooperation are essentially the same as those as proved in the Petition (and evidence filed therewith) granted in a Decision According Status Under 37 CFR 1.47(b) mailed February 17, 2004 for contemporaneously filed U.S. Patent Application 10/403,977.

Accordingly, the invention is subject to her agreement in writing to assign the invention to **Hewlett-Packard Company** in accordance with the attached California Employee Invention Agreement. I have first hand knowledge of the fact that the conditions of the Agreement are met, to wit:

- 1) the invention was made while **Ruby B. Lee** was employed by **Hewlett-Packard Company**;
- 2) the invention relates to the business of **Hewlett-Packard Company**; and
- 3) the invention does not fully qualify under the provisions of California labor code section 2870.

I hereby declare that all statements made herein of my own knowledge are true and that all statements made on information and belief are believed to be true; and further that these statements were made with the knowledge that willful false statements and the like so made are punishable by fine or imprisonment, or both, under Section 1001 of Title 18 of the United States Code and that such willful false statements may jeopardize the validity of the application or any patent issued thereon.

*** § 2870. Employment agreements; assignment of rights**

Any provision in an employment agreement which provides that an employee shall assign or offer to assign any of his or her rights in an invention to his or her employer shall not apply to an invention for which no equipment, supplies, facility, or trade secret information of the employer was used and which was developed entirely on the employee's own time, and (a) which does not relate (i) to the business of the employer or (2) to the employer's actual or demonstrably anticipated research or development, or (b) which does not result from any work performed by the employee for the employer. Any provision which purports to apply to such an invention is to that extent against the public policy of this state and is to that extent void and unenforceable.
