### Assignment of Application and Patent

**Whereas**, the undersigned inventors, have made an invention relating to **Apparatus and Methods for Mitigating the Effects of Foreign Interferents on Analyte Measurements in Spectroscopy**, said invention being disclosed and claimed in an application for United States patent filed on December 19, 2005, and assigned U.S. patent application serial number 11/305,964;

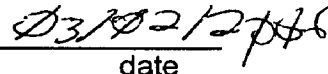

**Whereas** in consideration of employment with TruTouch Technologies, Inc. of 800 Bradbury SE, Albuquerque, New Mexico 87106 ("**Assignee**"), or consideration of employment by InLight Solutions, Inc. and agreements between InLight Solutions, Inc. and Assignee, each of us have agreed, among other things, to assign to Assignee, its successors and assigns, all rights to the invention(s) described in the above-referenced patent application;

**Therefore**, each of us hereby sells, assigns, and transfers unto Assignee each of our entire right, title, and interest in and to said invention and in and to all resulting patents, wherever they may be granted, as well as continuations, divisionals, reissues and extensions of said patents. Each of us hereby authorizes and requests the Commissioner of Patents and Trademarks to issue said patents to Assignee, of the entire right, title, and interest in and to the same, to the full end of the term for which said patents may be granted, as fully and entirely as the same would have been held by me had this assignment and sale not been made.

Each of us covenants with Assignee that my interest in the rights and property herein conveyed is free and clear of any encumbrance and that each of us have full right to convey the same as herein expressed. Each of us agrees, at the request of Assignee, to make, execute, and deliver to assignee, or other party prosecuting patent applications on this invention, any and all papers, documents, affidavits, applications, statements or other instruments relating to said invention, take all rightful oaths and do all acts as may reasonably be required of me in or incident to the prosecution of any or all applications on said invention or in the adjustment or settlement of any interferences or other actions or proceedings that said applications or patents thereon may encounter or in which they may become involved.
