PATENT ASSIGNMENT

THIS PATENT ASSIGNMENT (this "Assignment") is entered into as of the date last below written by and between **STEVEN F. BOLLING, M.D.** ("Assignor") and **BIOVIGIL, LLC**, a Michigan limited liability company ("Assignee").

Recitals:

- A Assignee was organized in the State of Michigan on December 22, 2005
- B Assignor and Elizabeth Routson executed Assignee's Operating Agreement as of December 31, 2005 (the "Operating Agreement Date").
- C In exchange for his equity interests in Assignee, Assignor agreed to assign to Assignee the United States Patent Applications set forth on Schedule A attached hereto, together with all associated patent rights to the inventions disclosed therein (collectively, the "Patents")

NOW, THEREFORE, for good and valuable consideration, the receipt and sufficiency of which are hereby acknowledged, Assignor hereby assigns to Assignee his entire right, title and interest in and to the Patents, for the United States and for all foreign countries, including, without limitation, any continuations, divisions, continuations-in-part, reissues, reexaminations, extensions or foreign equivalents thereof, and including the subject matter of all claims that may be obtained therefrom, and all other corresponding rights that are or may be secured under the laws of the United States or any foreign country, now or hereafter in effect, for Assignee's own use and enjoyment, and for the use and enjoyment of Assignee's successors, assigns or other legal representatives, as fully and entirely as the same would have been held and enjoyed by Assignor if this Assignment had not been made, together with all income, royalties, damages or payments due or payable as of the effective date of such assignment or thereafter, including, without limitation, all claims for damages by reason of past, present or future infringement or other unauthorized use of the Patents, with the right to sue for, and collect the same for its own use and enjoyment, and for the use and enjoyment of its successors, assigns or other legal representatives.

Assignor hereby authorizes and requests the Director of the United States Patent and Trademark Office, and the corresponding entities or agencies in any applicable foreign countries, to record Assignee as owner of the Patents

Assignor will, at Assignee's expense, take all further actions, and provide to Assignee, Assignee's successors, assigns or other legal representatives, all such cooperation and assistance (including, without limitation, the execution and delivery of any and all affidavits, declarations, oaths, exhibits, assignments, powers of attorney or other documentation), requested by Assignee to more fully and effectively carry out the purposes of this Assignment, including, without limitation, with respect to the following: (1) the preparation and prosecution of any applications relating to any of the rights assigned herein; (2) the prosecution or defense of any interference, opposition, reexamination, reissue, infringement or other proceedings that may arise in connection with any of the rights assigned herein, including, without limitation, testifying as to any facts relating to the Patents and this Assignment; (3) obtaining any additional patent protection relating to any of the rights assigned herein that Assignee may deem appropriate that may be secured under the laws now or hereafter in effect in the United States or any foreign country; and (4) the implementation or perfection of this Assignment in all applicable jurisdictions throughout the world.

This Assignment will be deemed effective as of the Operating Agreement Date to the extent permitted by law or otherwise the earliest possible date thereafter legally permitted as it has always been the intent of the parties that Assignor was obligated to make such assignments in exchange for his equity interests in Assignee

Whenever possible, each provision of this Assignment will be interpreted in such a way as to be effective and valid under applicable law. If a provision is prohibited by or invalid under applicable law, it will be ineffective only to the extent of such prohibition or invalidity, without invalidating the remainder of such provision or the remaining provisions of this Agreement.
