ARTICLE 1 Definitions

1.1 "**Assigned Patents**" means those certain patents and patent applications listed in Exhibit A and any and all patents and patent applications within the Patent Family of those certain patents and patent applications listed in Exhibit A.

1.5 "**Licensed Trademarks**" means the "Win All" trademark (U.S. Serial No. 78621096) and the "Lucky Reels" trademark (U.S. Registration No. 2444478), including all common law rights under the foregoing trademarks and all rights under the registration of the "Win All" trademark.

ARTICLE 2

Assignment of Patents

2.1 *Assignment of Patents.* ColePat hereby irrevocably grants, conveys, sells, assigns, transfers and delivers to IGT, its successors and assigns, all of ColePat's rights, title, and interest throughout the world in and to the Assigned Patents, subject only to the third-party license rights under the license agreements disclosed by ColePat in Exhibit B (the "***Existing Licenses***") as such license rights exist on the Effective Date and as further restricted by Sections 2.6, 2.7 and 2.8 of this Agreement.

2.2 *Representations and Warranties.* ColePat represents, warrants and covenants to IGT as follows:

2.2.1 *Ownership.* With the exception of the rights granted under the Existing Licenses, immediately prior to the grant in Section 2.1, ColePat is the exclusive owner of all right,

title and interest in and to (free and clear of all liens, claims or encumbrances) each of the Assigned Patents and has the exclusive rights to use, sell, license, assign, transfer, convey, dispose of, or otherwise commercially exploit the Assigned Patents.

2.2.2 Patent Maintenance. Each of the Assigned Patents is in compliance with all formal legal requirements (including payment of filing, examination and maintenance fees and proofs of use). All necessary registration, maintenance and renewal fees in connection with each of the Assigned Patents has been paid and all necessary documents and certificates in connection with the Assigned Patents have been filed with the relevant patent authorities in the United States or foreign jurisdictions, as the case may be, for the purposes of perfecting, prosecuting and maintaining the Assigned Patents. Except as set forth on Exhibit A, there are no actions that are required to be taken by ColePat or IGT within one hundred eighty (180) days of the date hereof with respect to maintaining or renewing the Assigned Patents.

2.2.3 Licensed Rights. With the exception of the rights granted under the Existing Licenses, neither ColePat nor any other person has granted any right, interest, license or sublicense under the Assigned Patents to any third party. Exhibit B hereto presents a true and correct copy of each and every license or sublicense under the Assigned Patents. Each such license and sublicense is a legal, valid and binding obligation of ColePat and of each other party to such license or sublicense, and is enforceable against each such other party, in accordance with its terms. Neither ColePat, nor any other party to any such license or sublicense, is in default or breach or has failed to perform any obligation under such license or sublicense, and there does not exist any event, condition or omission that would constitute such a breach or default (whether by lapse of time or notice or both) of any such license or sublicense. IGT assumes no liability or obligations under the Existing Licenses.

2.2.5 Inventor Assignments. To the extent that any of the Assigned Patents has been developed or created by an employee, independent contractor or other third party, ColePat has entered into a written assignment agreement with such employee, independent contractor or third party irrevocably granting exclusive ownership of all rights in and to such Assigned Patents to ColePat.

2.2.6 Corporate Authority. ColePat is duly formed and validly existing under the laws of Nevada and has the full power and authority to execute and deliver this Agreement, and perform its obligations hereunder. The execution, delivery and performance of this Agreement has been duly and validly authorized by ColePat, and upon execution and delivery, this Agreement constitutes the valid and binding agreement of each party enforceable against it in accordance with its terms.

2.3 Prosecution of the Assigned Patents. IGT shall be responsible for the prosecution and maintenance of any and all of the Assigned Patents, which responsibility IGT may exercise in its reasonable discretion.

2.4 Patent Assistance. ColePat shall promptly provide to IGT complete and accurate copies of all ColePat files, documentation and correspondence related to the prosecution, maintenance and enforcement of the Assigned Patents, as well as a full and complete docket of any actions required to be taken for the maintenance and/or furtherance of the Assigned Patents, and the deadlines associated therewith. ColePat shall further provide to IGT, and shall cause its agents, employees and consultants to provide to IGT, all assistance reasonably requested by IGT, at IGT's expense, with respect to the prosecution, maintenance and enforcement of any and all of the Assigned Patents.

2.11 Trademark Licenses. ColePat hereby grants IGT a worldwide, royalty-free, fully paid, exclusive (subject to the Existing Licenses) license to use the Licensed Trademarks and all goodwill therein in connection with the manufacture, marketing, distribution, promotion sale and placement of Devices. With respect to all Devices sold or placed by IGT under the Licensed Trademarks, IGT agrees to meet or exceed a quality standard comparable to the quality standard of the ColePat devices sold or placed under the Licensed Trademarks.

11.12 Counterparts. This Agreement may be executed in one or more counterparts (and by facsimile), all of which shall be considered one and the same agreement, and shall become effective when one or more counterparts have been signed by each of the parties and delivered to the other party. Signatures delivered by facsimile are acknowledged to be acceptable as original signatures.
