ASSIGNMENT

This Assignment is made by **Chris Crafford and Daniel J. Gardner**
("Assignors").

WHEREAS, Assignors have invented a new and useful invention entitled
**SYSTEM AND METHOD FOR DETECTING INCONGRUOUS OR INCORRECT MEDIA IN A
DATA RECOVERY PROCESS**, for which an application for United States Patent was made on
December 6, 2005 bearing an application number of **11/294,950**;

WHEREAS, Assignors believe themselves to be the original inventors of the
invention including any and all improvements disclosed in said application ("Invention"); and

WHEREAS, the parties desire to have a recordable instrument assigning the
entire right, title and interest in and to said Invention, said application, on any subsequently filed
divisional, continuation, continuation-in-part, re-examination, reissue or other application, and
any patents, invention registrations or other forms of protection ("Patents") that may be granted
for said Invention in the United States and throughout the world;

NOW, THEREFORE, in accordance with the obligations to assign the Invention
and for other good and valuable consideration, the receipt and sufficiency of which are hereby
acknowledged, Assignors hereby sell, assign, and transfer to **RenewData Corporation** having
a principal place of business at **9500 Arboretum Boulevard, Suite L2-120, Austin, Texas,
78759** (hereinafter referred to as "Assignee"), the entire right, title, and interest in and to said
Invention, said application and any Patents that may be granted for said Invention in the United
States and throughout the world, including the right to file foreign applications directly in the
name of the Assignee and to claim for any such foreign applications any priority rights to which
such applications are entitled under international conventions, treaties, or otherwise.

Assignors agree that, upon request and without further compensation, but at no
expense to Assignors, they and/or their legal representatives and assigns will do all lawful acts,
including the execution of papers and the giving of testimony, that may be necessary or
desirable for obtaining, sustaining, reissuing, or enforcing the Patents in the United States and
throughout the world for said Invention, and for perfecting, recording, or maintaining the title of
Assignee, its successors and assigns, to said Invention, said application, and any Patents
granted for said Invention in the United States and throughout the world.

Assignors represent and warrant that they have not granted and will not grant to
others any rights inconsistent with the rights granted herein.

Assignors authorize and request the Commissioner for Patents of the United States and of all foreign countries to issue any Patents granted for said Invention, whether on said application or on any subsequently filed divisional, continuation, continuation-in-part, re-examination, reissue or other application, to Assignee, its successors and assigns, as the assignee of the entire interest in said Invention.

IN WITNESS WHEREOF, Assignors have executed this Assignment on the dates provided below.
