ASSIGNMENT OF DESIGN PATENTS

DATE: December 19, 2005

PARTIES:

Measurement Specialties, Inc. a corporation established and existing under the laws of New Jersey whose principal place of business is at 1000 Lucas Way, Hampton VA 23666 ("the Assignor").

Measurement Ltd. a company established and existing under the laws of Cayman Islands with registered number TR-133680 whose registered office is at Trident Trust Company (Cayman) Limited, Fourth Floor, One Capital Place, P.O. Box 847GT Grand Cayman, Cayman Islands, British West Indies ("the Assignee").

Assignor and Assignee are hereinafter also individually referred to as a "Party" and collectively as the "Parties".

RECITALS:

The Assignor is the owner of record of the patents and patent applications detailed particulars of which are set out in the Schedule (collectively, "Assigned Patents"; respectively, "Patents" and "Patent Applications").

Pursuant to a share purchase agreement entered into between Kenabell Holding Limited and Fervent Group Limited as of November 30, 2005 (the "Share Purchase Agreement"), the Assignor has agreed to assign the entire right, title and interest in the Patents and the full benefit of the Patent Applications to the Assignee.

1. INTERPRETATION

- 1.1 In this Assignment, where the context so admits or requires, words denoting the singular include the plural and vice versa; and
- 1.2 For the avoidance of doubt, "Assigned Patents" shall cover all Patents and Patent Applications listed in the attached Schedules, as well as any patent that issues from the Patent Applications listed in the attached Schedule, any and all patent filings claiming the priority of the Patents and Patent Applications listed in the Schedule, including all divisions, continuations, continuations-in-part, patents granted thereon, reissues, re-examined patents, renewals and extensions thereof, to the full extent of the term or terms and all forms of intellectual and industrial property protection, including, without limitation, patents, applications, utility models, inventor's certificates, designs and other technical information together with the right to file applications therefore; and shall also cover the right to claim the same priority rights from any previously filed applications under the International Agreement for the Protection of Industrial Property, or any other international agreement, or the domestic laws of the country in which such

application is filed, as may be applicable and all such rights, title, interest and benefit are to be held and enjoyed by the above-named Assignee, its successors, legal representatives and assigns to the same extent as all such rights, title, interest and benefit would have been enjoyed by the Assignor had this assignment not been made.

2. ASSIGNMENT

The Assignor hereby assigns to the Assignee:

- 2.1 the entire right, title and interest in the Assigned Patents for the residue of their respective terms, including all renewals and extensions;
- 2.2 the full benefit of the Assigned Patents and with the intent that the grant of any patent pursuant to the Patent Applications shall be in the name of and vest absolutely in the Assignee; and
- 2.3 the right to sue for and obtain full and effective relief in respect of every act of infringement of the Assigned Patents occurring prior to, at the same time of, and in the future of the signing date of this Assignment.

3. REPRESENTATIONS

The Assignor represents that:

- 3.1 it shall, at the request of Assignee, execute all such further documents, forms and authorisations and depose or swear any declaration or oath as may be required or as the Assignee may deem necessary or expedient or otherwise be necessary for absolutely vesting full right, title and interest in and to the Patents and full benefit of the Patent Applications to the Assignee;
- 3.2 it shall, at the request of Assignee, execute all further documents that are necessary to effectuate the recordal of the assignment of the Assigned Patents from Assignor to Assignee with the relevant government authority, and the governmental fees associated with such recordal shall be for the account of Assignee;

4. WARRANTIES

The Assignor warrants that:

it has the full power and authority to enter into this Assignment and to perform fully each and every one of its obligations hereunder and further it has fully authorised its representative whose signature is affixed hereto to sign this Assignment and to bind it

5. IMPROVEMENTS AND MODIFICATIONS

The Assignee shall have the right to make improvements or modifications to the Patents and Patent Applications and shall have full ownership rights over any

improvements made by it.

6. ASSIGNMENT

This Assignment shall be binding upon and shall inure to the benefit of the Parties hereto, their Affiliates, assigns and successors in interest.

7. TERM

The effective date of the Assignment shall be the date first set forth above (the "Effective Date").

8. GOVERNING LAW

The construction, validity and performance of this Assignment shall be governed by the laws of Hong Kong.

IN WITNESS WHEREOF, the Parties hereto have caused this Assignment to be executed in two originals by their duly authorised representatives as of the date first above written.
