THIS PATENT ASSIGNMENT (this "Assignment") is made as of the 28th day of April, 2006, by and between Universal Form Clamp of Chicago, Inc., an Illinois corporation ("Assignor") and Universal Form Clamp, Inc., a Delaware corporation ("Assignee").

WHEREAS, Assignor and Assignee, and other third parties, have entered into an Asset Purchase Agreement dated April 28, 2006 pursuant to which Assignor has agreed to sell and Assignee has agreed to purchase, among other things, certain Intellectual Property (as defined in the Asset Purchase Agreement); and

WHEREAS, Assignor is willing, in connection with certain transactions being consummated as of the date hereof, to assign to Assignee all of Assignor's right, title and interest in and to the patents and patent applications listed on Schedule A attached hereto (the "Patents"); and

WHEREAS, Assignee desires to acquire all of Assignor's right, title and interest in, to and under said Patents.

NOW, THEREFORE, for good and valuable consideration, the receipt and sufficiency of which is hereby acknowledged, Assignor has sold, assigned, transferred and set over, and does hereby sell, assign, transfer and set over, unto Assignee, its successors, legal representatives and assigns, all of Assignor's right, title and interest in, to and under the Patents and all divisions, renewals and continuations thereof, and all Letters Patent of the United States which may be granted thereon and all reissues and extensions thereof (including, without limitation, all proceeds thereof and the rights to sue for past, present and future infringements), and all applications for Letters Patent which have been or may hereafter be filed for said Patents in any country or countries foreign to the United States.

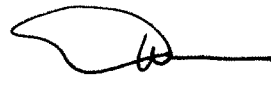

Assignor further agrees without further consideration to cause to be performed such other lawful acts and to be executed such further assignments and other lawful documents as Assignee may from time to time reasonably request to effect fully this Assignment and to permit Assignee to be duly recorded as the registered owner of the Patents and all other rights hereby conveyed.

All costs associated with assigning the Patents to Assignee shall be borne by Assignee.

This Assignment is subject to the terms and conditions of the Asset Purchase Agreement dated April 28, 2006.
