PATENT, INVENTION AND TECHNOLOGY ASSIGNMENT

This is a Patent, Invention and Technology Assignment from JONAH C. TSUI, an individual residing at 9914 N.E. 157th Street, Bothell, Washington 98011 (the "ASSIGNOR"), to **POWER RESOURCE MANAGERS, LLP**, a Washington limited liability partnership, and its successors, assigns, and legal representatives ("ASSIGNEE"). For and in consideration of the sum of ten dollars in hand paid, and other good and valuable consideration, the receipt and adequacy of which is hereby acknowledged, and further recognizing that ASSIGNEE intends to assign all rights and property transferred hereunder to The Energy Authority, Inc., a Georgia nonprofit corporation ("TEA"), that ASSIGNEE and TEA are relying on the representations and agreements set forth herein, and that ASSIGNOR will benefit from that assignment, ASSIGNOR has forever, irrevocably and unconditionally sold, assigned, transferred and conveyed, and does hereby forever, irrevocably and unconditionally sell, assign, transfer and convey unto ASSIGNEE, the entire right, title and interest for the United States of America and all other jurisdictions worldwide in and to certain ideas, inventions, improvements, methods and processes and all patents and patent applications therefor identified as follows:

1. United States patent application serial number 60/291,848 filed on May 18, 2001 (originally assigned and executed by ASSIGNOR to ASSIGNEE on August 1, 2001 and recorded in the United States Patent and Trademark Office on August 13, 2001 and assigned Reel / Frame number 012080/0149, assigning that patent application and any and all subsequent patent applications or patents based thereon);
2. United States patent application serial number 10/152,088 filed on May 20, 2002;
3. United States patent application serial number 60/675,342 filed on April 26, 2005; and
4. United States patent application serial numbers 11/380,401 and 11/380,405 filed on April 26, 2006,

together with the entire right, title and interest in and to said patent applications and in and to any and all Letters Patent which may be issued upon said applications, and upon any subsequent applications and division, extension, continuation, reissue, reexamination or related applications thereof. The foregoing sale, assignment, transfer and conveyance further includes all ideas, inventions, improvements, methods and processes disclosed and/or claimed in the foregoing patents and applications and all other ideas, inventions, improvements, methods and processes conceived or reduced to practice by ASSIGNOR, in whole or in part and whether jointly or individually, within and in relation to the scope of his employment with ASSIGNEE at any time during the period of ASSIGNOR's employment with ASSIGNEE.

ASSIGNOR forever, irrevocably and unconditionally also sells, assigns, conveys and transfers unto ASSIGNEE, the entire right, title and interest in and to said ideas, inventions, improvements, methods and processes and in and to applications for Letters Patent therefore in all countries foreign to the United States of America, including all rights under any and all international conventions and treaties in respect of said invention and said applications for Letters Patent in foreign countries, and ASSIGNOR further authorizes ASSIGNEE to apply for Letters Patent in foreign countries directly in its own name, and to claim priority of the filing date of the said application for Letters Patent of the United States of America under the provisions of any and all international conventions and treaties.

ASSIGNOR hereby authorizes and requests the Commissioner of Patents of the United States of America to issue Letters Patent upon the aforesaid application, division, extension, continuation, reexamination, reissue and all related applications, to ASSIGNEE, for the sole use and behalf of ASSIGNEE, its successors, assigns and legal representatives, to the full end of the term for which said Letters Patent may be granted, the same as they would have been held and enjoyed by ASSIGNOR had this assignment not been made, and ASSIGNOR hereby authorizes and requests the equivalent authorities in foreign countries to issue the patents of their respective countries to ASSIGNEE. This sale, assignment, transfer and conveyance also includes all past, present and future claims for infringement and other violations which could have been brought in ASSIGNOR'S name or with others.

ASSIGNOR agrees that ASSIGNOR will, upon request by ASSIGNEE, but at ASSIGNEE'S expense, promptly provide ASSIGNEE with all pertinent facts and documents relating to all patents and properties assigned hereunder and to all applications or any continuation, divisional, renewal, substitute, reissue, reexamination or related applications thereof, and said Letters Patent, both foreign and domestic, as may be known and accessible to ASSIGNOR; and that ASSIGNOR will testify as to the same in any interference, opposition or litigation or other proceeding relating thereto, and will promptly execute and deliver to ASSIGNEE or its legal representative any and all papers, instruments or affidavits required to apply for, obtain, maintain and enforce said application, said inventions, and said Letters Patents, both foreign and domestic, which may be necessary or desirable to carry out the purposes hereof.

ASSIGNOR covenants and agrees that no assignment, sale, agreement or encumbrance has been or will be made or entered into which would conflict with this sale, assignment, transfer and conveyance.
