ASSIGNMENT OF PATENT AND PATENT APPLICATION RIGHTS

WHEREAS, Recreation Systems Inc. d/b/a Happijac Company, a Utah corporation ("Seller"), is the owner of the patents and applications for patents set forth on Exhibit A attached hereto; and

WHEREAS, Lippert Components Inc., a Delaware corporation ("Buyer"), has agreed to acquire from Seller, and Seller has agreed to transfer to Buyer, all of Seller's right, title and interest in and to the above referenced patents and patent applications.

NOW, THEREFORE, for good and valuable consideration, the receipt and sufficiency of which are hereby acknowledged, Seller hereby sells, assigns and transfers to Buyer, its successors and assigns, the entire right, title and interest of Seller in and to the above-referenced patents, all patent applications and inventions covered thereby and improvements thereto, and all continuations, divisions, continuations-in-part, extensions or reissues thereof, together with all rights, interests and obligations running toward or granted to Seller under any previously executed assignment agreements between the inventor of each invention embodied in the above-referenced patents and patent applications and Seller or any of its predecessors in title, and together with all claims and demands that Seller or its predecessors may have, at law or in equity, whether presently known, unknown, accrued or to accrue, arising out of past or present infringements of such patents, including, without limitation, the right to recover all claims for damages and compensation. Such right, title and interest shall be held and enjoyed by Buyer, its successors and assigns, as fully and entirely as the same would have been held and enjoyed by Seller if this assignment and sale had not been made.

Seller further hereby sells and assigns to Buyer its foreign rights to said inventions in all patent granting countries of the world, including, without limitation, the right to file applications or to obtain patents for said inventions in its own name in said countries under the terms of the Paris Convention for the Protection of Intellectual Property, together with all rights of priority and all other rights Seller has under any and all international agreements to which the United States adheres. Seller hereby authorizes and requests any official, whose duty it is to issue in any country a patent or patents on said inventions or improvements, to issue patent or patents to Buyer or its nominees, successors or assigns.

The provisions of this instrument are subject, in all respects, to the terms and conditions of that certain Asset Purchase Agreement, dated June 12, 2006, among Buyer and its affiliated assignees, Seller, and the Shareholders of Seller (the "Purchase Agreement"), including, without limitation, the patent license granted to Seller, which shall survive the execution and delivery of this instrument. Nothing contained in this instrument shall be deemed to modify, amend or supersede any of the terms or conditions of the Purchase Agreement. In the event of any conflict or inconsistency between the terms and conditions of this instrument and the terms and conditions of the Purchase Agreement, the terms and conditions of the Purchase Agreement shall prevail. This instrument shall be binding upon Seller, its successors and assigns, and shall inure to the benefit of Buyer, its successors and assigns.

IN WITNESS WHEREOF, Seller has caused its duly authorized officer to execute and deliver this instrument as of June 12, 2006.
