PATENT SECURITY AGREEMENT

WHEREAS, Innova Finance, LLC, a Delaware limited liability company (herein called "Grantor"), owns certain "Patents" (as defined below); and

WHEREAS, Grantor, certain affiliates of Grantor, the Lenders from time to time party thereto, and The CIT Group/Business Credit, Inc., as Agent for the Lenders (herein, together with its successors and assigns, called "Grantee") are parties to a Financing Agreement dated as of August 10, 2006 (herein, as from time to time amended, supplemented, or restated, called the "Financing Agreement"; capitalized terms used but not defined herein shall have the meanings given them in the Financing Agreement); and

WHEREAS, pursuant to the terms of the Financing Agreement, Grantor has granted to Grantee for the benefit of Grantee and the Lenders a continuing security interest in various assets of Grantor, including all right, title and interest of Grantor in, to and under the Patent Collateral (as defined herein) whether now owned or existing or hereafter acquired or arising, to secure the Obligations;

NOW, THEREFORE, for good and valuable consideration, the receipt and sufficiency of which are hereby acknowledged, and to additionally secure such Obligations, Grantor does hereby grant to Grantee a continuing security interest in all of Grantor's right, title and interest in, to and under the following (all of the following items or types of property being herein collectively referred to as the "Patent Collateral"), whether now owned or existing or hereafter acquired or arising:

(a) each Patent in which Grantor has any interest, and all of the goodwill of the business connected with the use of, or symbolized by, each such Patent; and

(b) all proceeds of and revenues from the foregoing, including, without limitation, all proceeds of and revenues from any claim by Grantor against third parties for past, present or future unfair competition with, or violation of intellectual property rights in connection with or injury to, or infringement or dilution of, any Patent, or for injury to the goodwill associated with any of the foregoing.

As used herein:

"Patents" means all of the following: (a) all patents, patent applications, and general intangibles of like nature, and the rights in any of the foregoing which arise under applicable law, (b) the goodwill of the business symbolized thereby or associated with each of them, (c) all registrations and applications in connection therewith, including registrations and applications in the United States Patent and Trademark Office or in any similar office or agency of the United States, any State thereof or other country, or any political subdivision thereof, including those described in Schedule 1 hereto, (d) all reissues, extensions and renewals thereof, (e) all claims for, and rights to sue for, past or future infringements of any of the foregoing, and (f) all income, royalties, damages and payments now or hereafter due or payable with respect to any of the foregoing, including damages and payments for past or future infringements thereof.

Grantor hereby irrevocably constitutes and appoints Grantee and any officer or agent thereof, with full power of substitution, as its true and lawful attorney-in-fact with full power and authority in the name of Grantor or in its name, from time to time, in Grantee's discretion, so long as any Event of Default has occurred and is continuing, to take with respect to the Patent Collateral any and all appropriate action which Grantor might take with respect to the Patent Collateral and to execute any and all documents and instruments which may be necessary or desirable to carry out the terms of this Patent Security Agreement and to accomplish the purposes hereof.

Except to the extent expressly allowed in the Financing Agreement, Grantor agrees not to sell, license, exchange, assign or otherwise transfer or dispose of, or grant any rights with respect to, or mortgage or otherwise encumber, any of the foregoing Patent Collateral. Notwithstanding the foregoing, unless expressly stated in the Financing Agreement, Grantor shall not have an affirmative duty to register or protect any of the Patent Collateral.

This security interest is granted in conjunction with the security interests granted to Grantee pursuant to the Financing Agreement. Grantor does hereby further acknowledge and affirm that the rights and remedies of Grantee with respect to the security interest in the Patent Collateral made and granted hereby are more fully set forth in the Financing Agreement, the terms and provisions of which are incorporated by reference herein as if fully set forth herein.

This Patent Security Agreement shall be governed by and construed in accordance with the laws of the State of New York except to the extent that the perfection and the effect of perfection or non-perfection of the security interest created hereunder, in respect of any particular Patent Collateral, are governed by the laws of a jurisdiction other than such State.
