PATENT ASSIGNMENT
TO
STOCKHAUSEN GmbH

This PATENT ASSIGNMENT (this "Assignment") is made as of the 1st day of July, 2006, by and among The Dow Chemical Company, a Delaware corporation ("Dow"), Dow Global Technologies Inc., a Delaware corporation ("DGTI") (with Dow and DGTI each being an "Assignor" and collectively being the "Assignors"), and Stockhausen GmbH, a German limited liability company ("Assignee").

WHEREAS, Dow and Degussa AG, a German stock corporation with registered offices in Düsseldorf and registered with the Commercial Register of the Local Court in Düsseldorf under No. HRB 39635 ("Degussa"), have entered into an Asset Purchase Agreement, dated as of February 9, 2006 (as amended through the date hereof, the "Asset Purchase Agreement"; capitalized terms used herein but not otherwise defined herein having the meanings given to such terms in the Asset Purchase Agreement), pursuant to which Dow agreed to sell and agreed to cause its Affiliates (including DGTI) to sell to Degussa, and Degussa agreed to purchase from Dow and its Affiliates (including DGTI), all of their respective right, title and interest in and to the Assigned Intellectual Property.

WHEREAS, pursuant to Section 11.01 of the Asset Purchase Agreement, Degussa assigned its right to purchase the Intellectual Property set forth on Schedule I attached hereto (the "Assigned Patents") to Assignee, and Assignee has accepted an assignment from Degussa of Degussa's right to purchase the Assigned Patents;

WHEREAS, Assignors wish to assign to Assignee, and Assignee wishes to acquire from Assignors, all of Assignors' right, title and interest in and to the Assigned Patents.

NOW, THEREFORE, the parties agree as follows:

1. In consideration of good and valuable consideration, receipt of all of which is hereby acknowledged, each Assignor has agreed to and does hereby sell, assign, and transfer unto Assignee, its successors and assigns, all of Assignor's right, title and interest in and throughout the United States of America (including its territories and dependencies) and all countries foreign thereto, in and to said Assigned Patents and to any patents and patent applications that may be granted or filed, respectively, that claim priority based on and

correspond to the Assigned Patents, including any divisions, renewals, reissues, continuations, extensions, continuations-in-part and foreign equivalents of the Assigned Patents.

2. **TO BE HELD AND ENJOYED** by Assignee, its successors and assigns, to the ends of the respective full terms for which said patents have been or may be granted, as fully and entirely as the same would have been held and enjoyed by Assignors had this sale and Assignment not been made.

3. Assignors hereby authorize and request the Commissioner of Patents and Trademarks of the United States of America and any patent granting agency in a foreign country to issue any and all United States patents and/or foreign patents, respectively, which may be granted upon said Assigned Patents to Assignee, its successors and assigns.

4. Assignee shall be responsible for all costs and actions for transfer of patents and registration of patent assignments. Assignors agree that they will, upon request of the Assignee, execute and deliver those papers prepared and provided by Assignee that are reasonably necessary to confirm the assignment made herein.

5. This Agreement may be executed in one or more counterparts, all of which shall be considered one and the same agreement, and shall become effective when such counterparts have been signed by each of the parties hereto and delivered to the other parties hereto.

6. This Agreement shall be governed by and construed and enforced in accordance with the laws of the State of New York without giving effect to the principles of conflicts of law thereof.

7. This Agreement shall be binding upon and inure to the benefit of the parties hereto and their respective successors and permitted assigns.

IN WITNESS WHEREOF, the parties hereto have caused these presents to be executed by their officers thereunto duly authorized this 1st day of July, 2006.
