WHEREAS, The Goodyear Tire & Rubber Company, a corporation organized and existing under the laws of the State of Ohio (the "Assignor"), is the sole and exclusive owner of certain United States and foreign patents and patent applications (the "Patent Rights"), as listed in the attached Schedule; and

WHEREAS, Sartomer Company, Inc., a corporation organized and existing under the laws of the State of Delaware (the "Assignee"), desires to acquire the entire right, title, and interest in and to such Patent Rights.

Assignee hereby accepts such sale, assignment and transfer. For the avoidance of doubt, this Assignment of Patents and Patent Applications shall not be construed as assigning any rights in any patents or patent applications that are not required to be assigned pursuant to the Asset Purchase and Sale Agreement, dated June 22, 2005, as amended, previously executed by Assignor and Assignee.

At any time and from time to time after the date hereof, at the Assignee's reasonable request and without further consideration, the Assignor shall, and shall cause its affiliates to, promptly execute and deliver such instruments of sale, transfer, conveyance, assignment and confirmation, and take such other action, as the Assignee may reasonably request to more effectively transfer, convey and assign to the Assignee, and to confirm the Assignee's title to, all of the Patent Rights.

Assignor hereby authorizes and requests and grants full power of attorney to Assignee to perform all such acts on behalf of Assignor, necessary or useful to execute the assignment and transfer in this Assignment Agreement, including, without limitation, the right to request and instruct the officials of patent offices in all countries and territories of the world to issue such patents to the Assignee, its successors and assigns, for their sole use and benefit, as shall be granted upon said Patent Rights, including all divisional, continuation, continuation-in-part, reexamination, reissue or other applications based in whole or in part thereon, to the full end of the term for all said patents that may be granted, as fully and entirely as the same would have been held by Assignor had this transfer, assignment and sale not been made.
