Atty. Docket No. SHA01 P-333

ASSIGNMENT

WHEREAS, Darin Evans assigned the entire right, title and interest in and to U.S. Patent No. 6,609,740 in a prior assignment document signed on January 31, 2002 to Netshape Corporation, with such prior assignment document being recorded at the United States Patent and Trademark Office to Reel 012557, Frame 0409. However, such prior assignment document incorrectly listed the assignee as Netshape Corporation, a Michigan Limited Liability Company, wherein Netshape was correctly a partnership of the state of Michigan. The current assignment is to correct the assignee's name.

WHEREAS, Darin Evans, residing at 18927 Whispering Pine Way, Spring Lake, MI 49456 (hereinafter referred to as Assignor), has invented certain new and useful improvements in a BUMPER SYSTEM WITH FACE-MOUNTED ENERGY ABSORBER for which an application for United States Letters Patent was filed on February 1, 2002, and which issued as U.S. Patent No. 6,609,740 on August 26, 2003.

WHEREAS, Netshape, a partnership of the state of Michigan, having a place of business at 1900 Hayes Street, Grand Haven, Michigan 49417 (hereinafter referred to as Assignee), is desirous of obtaining the entire right, title and interest in and to U.S. Patent No. 6,609,740.

NOW, THEREFORE, in consideration of good and valuable considerations, the receipt of which is hereby acknowledged, Assignor hereby sells, assigns and transfers unto said Assignee the full and exclusive right, title and interest to the said invention in the United States and in all foreign countries and the entire right, title and interest in and to any and all Letters Patent which may be granted therefor in the United States and in any and all foreign countries and in and to any and all divisions, reissues, continuations, continuation-in-part, and extensions thereof including the full right to claim for any such applications the benefits of the International Convention, *nunc pro tunc*, effective as of January 31, 2002.

Assignor hereby authorizes and requests the Patent Office Officials in the United States and in any and all foreign countries to issue any and all of said Letters Patent, when granted, to said Assignee as the owner of the entire right, title and interest in and to the same, for the sole use and behoof of said Assignee, its successors and assigns.

FURTHER, Assignor agrees to communicate to said Assignee or its representatives any facts known to Assignor respecting said invention, and testify in any legal proceeding, sign all lawful papers, execute all divisional, continuation, continuation-in-part, substitution, renewal, and reissue applications, execute all necessary assignment papers to cause any and all of said Letters Patent to be issued to said Assignee, make all rightful oaths and generally do everything possible to aid said Assignee, its successors and assigns, to obtain and enforce proper protection for said invention in the United States and in any and all foreign countries.

IN TESTIMONY WHEREOF, I have hereunto set my hand on the date appearing next to my signature.

Witness:

[Handwritten Signature]

Assignor:
