ASSIGNMENT OF RIGHTS

WHEREAS, Arman Glodjo (hereinafter ASSIGNOR) an individual residing at Winsor House, 32 Tucker's Town Road, Tucker's Town, Bermuda is the inventor of the one or more new and useful improvements described in a United States Patent Application Serial No. 11/045,235, filed on or about January 28, 2005 with the title:

**SINGLE-PERIOD AUCTIONS NETWORK DECENTRALIZED
TRADING SYSTEM AND METHOD**

WHEREAS, Valaquentia Intellectual Properties Limited, a Bermuda company, (hereinafter, together with any successors, assigns, legal representatives of Valaquentia Intellectual Properties Limited or to any number of iterations of successors and assigns, collectively called ASSIGNEE) is desirous of memorializing the transfer of the entire right, title and interest therein for ASSIGNEE;

NOW, THEREFORE, for good and valuable consideration, the receipt and sufficiency of which is hereby acknowledged, the said ASSIGNOR by these presents hereby sell, assign, and transfer unto the said ASSIGNEE the full, exclusive, non-revocable, and worldwide rights, if any, to said improvements, including:

all rights currently owned or acquired in the future by ASSIGNOR in any patent application, patent or other legal document claiming one or more aspects of the improvements described in the above-identified application(s) whether or not the improvement is explicitly claimed in the above-identified application(s);

all rights currently owned or acquired in the future by ASSIGNOR in any patent application, patent or other legal document that claims any of the above-identified application(s) as a priority document, and any patent application or patent which results directly or indirectly through any number of links to any of the above-identified patent application(s), including links such as a non-provisional application, one or more continuation or divisional applications, one or more continuation-in-part applications, one or more reissue processes, substitute processes and re-examination proceedings, or any other like process to any of the above;

and the right of claiming priority to one or more of the application(s) or resulting patent(s) identified above for all member countries under any international agreements concerning intellectual property, including but not

limited to rights such as utility patent, extensions, design patent, utility model registration, inventor's certificates, defensive publications, and the like; and the results of any process granting legal rights within the United States or anywhere in the world.

ASSIGNOR hereby authorizes and requests the U.S. Commissioner of Patents and Trademarks, and any officials of other country patent systems whose duty it is to issue patents or related rights on applications as referenced above to issue any patents or document conveying rights arising from any of the above-identified patent application(s) to ASSIGNEE in accordance with the terms of this assignment for ASSIGNEE's sole use and behalf, to the full end of the term for which any patent may be granted, as fully and entirely as the same would have been held by ASSIGNOR had this assignment and sale not been made.

ASSIGNOR hereby grants to ASSIGNEE the right to file applications in any or all countries or regional systems on any of the conveyed improvements in the name of the ASSIGNOR, in the name of the ASSIGNEE, or otherwise, as ASSIGNEE may deem advisable.

ASSIGNOR agrees that upon request of ASSIGNEE, and without further remuneration, to execute any and all papers desired by ASSIGNEE, for full protection and title in and to the improvements hereby transferred including any and all papers desired by ASSIGNEE for the filing and granting of foreign applications and the perfecting of title thereto in ASSIGNEE.

ASSIGNOR hereby covenants and agrees to: communicate to ASSIGNEE any facts known to the ASSIGNOR respecting said improvements; provide relevant prior art material as required by law; testify in any legal proceeding; sign all lawful papers; execute all divisional, continuation, continuation-in-part, substitute and reissue applications; make all rightful oaths or declarations; and generally do everything necessary to obtain, maintain, and enforce proper legal protection for said improvements in all countries.

ASSIGNOR hereby further covenants and agrees that ASSIGNOR has the full right to convey the entire interest herein assigned, and ASSIGNOR has not and will not execute any agreement in conflict herewith.

ASSIGNOR agrees that if any provision of this Assignment shall for any reason be held to be invalid or unenforceable, such decision shall not affect, impair or invalidate the remainder of this Assignment but shall be confined in its operation to the provision of this Assignment directly involved in the controversy in which the decision was rendered. The invalid or unenforceable provision shall be reformed so that each ASSIGNOR shall have the obligation to perform reasonably in the alternative to give the ASSIGNEE the benefit of its bargain. In the event the invalid or unenforceable provision cannot be reformed, the other provisions or applications of this Assignment shall be given full effect, and the invalid or unenforceable provision shall be deemed stricken. 

ASSIGNOR

In testimony whereof, I hereunto set my hand this 07 day of Sept, 2006.
