*NOTE: For procedural purposes, application 10/848,525 filed on 5/17/04 was abandoned and a new application was filed, due to a looming deadline for a response to an office action. This new application claims the same priority date as 10/848,525 and has the same descriptive text and drawings. The only difference is in the claim filed, which is slightly different than the abandoned claim. A new set of claims should be substituted for the claims in this application; the new filing permits more time to do so as the first office action would not be issued for many months.
