**ASSIGNMENT**

**WHEREAS, the undersigned**

**Ferdinandus Wilhelmus Albertus RUTJES, resident of Laag Keppel,  
country of the Netherlands;**

**(hereinafter termed "Inventor(s)", has invented certain new and useful  
Improvements in**

*Napkin Holder*

**for which an application for a United States Patent was filed on July 20, 2006  
having Application Number 29/263,421 and**

**WHEREAS,**

**Topas A.A.T. b.v., a corporation of the country of The Netherlands having  
a place of business at Edisonstraat 41, P.O. Box 3, NL-7000 AA Doetinchem,  
The Netherlands (hereinafter termed "Assignee"), is desirous of acquiring the  
entire right, title and interest in and to said application and the invention  
disclosed therein, and in and to all embodiments of the invention, heretofore  
conceived, made or discovered jointly or severally by said Inventors (all  
collectively hereinafter termed "said invention"), and in and to any and all  
patents, inventor's certificates and other forms of protection (hereinafter  
termed "patents") thereon granted in the United States and foreign countries.**

**NOW, THEREFORE, in consideration of good and valuable consideration  
acknowledged by said Inventors to have been received in full from said  
Assignee:**

- 1. Said Inventors do hereby sell, assign, transfer and convey unto said  
Assignee, the entire right, title and interest (a) in and to said application and  
said invention; (b) in and to all rights to apply for foreign patents on said**

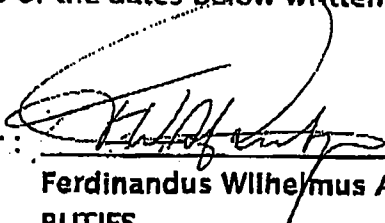

invention pursuant to the International Convention for the Protection of Industrial Property or otherwise; (c) in and to any and all applications filed and any and all patents granted on said invention in the United States or any foreign country, including each and every application filed and each and every patent granted on any application which is a division, substitution, or continuation of any of said applications; and (d) in and to each and every reissue or extensions of any of said patents.

2. Said Inventors hereby jointly and severally covenant and agree to cooperate with said Assignee to enable said Assignee to enjoy to the fullest extent the right title and interest herein conveyed in the United States and foreign countries. Such cooperation by said Inventors shall include prompt production of pertinent facts and documents, giving of testimony, execution of petitions, oaths, specifications, declarations or other papers, and other assistance all to the extent deemed necessary or desirable by said Assignee (a) for perfecting in said Assignee the right, title and interest herein conveyed; (b) for prosecuting any of said applications; (c) for filing and prosecuting substitute, divisional, continuing or additional applications covering said invention; (d) for filing and prosecuting applications for reissuance of any said patents; (e) for interference or other priority proceedings involving said invention; and (f) for legal proceedings involving said invention and any applications therefor and any patents granted thereon, including without limitation opposition proceedings, cancellation proceedings, priority contests, public use proceedings, infringement actions and court actions; provided, however, that the expense incurred by said Inventors in providing such cooperation shall be paid for by said Assignee.

3. The terms and covenants of this assignment shall inure to the benefit of said Assignee, its successors, assigns and other legal representatives, and shall be binding upon said Inventors, their respective heirs, legal representatives and assigns.

4. Said Inventors hereby jointly and severally warrant and represent that they have not entered and will not enter into any assignment, contract, or understanding in conflict herewith.

IN WITNESS WHEREOF, the said Inventors have executed and delivered this instrument to said Assignee as of the dates below written adjacent to each of their respective signature(s).
