INVENTION ASSIGNMENT

WHEREAS, Soloco, L.L.C., a limited liability company organized under the laws of the State of Louisiana and having an address of 207 Town Center Parkway, 1st Floor, Lafayette, Louisiana, 70506-7524 (hereinafter referred to as "Assignor"), owns D. Scott Rogers' entire right, title and interest in proprietary information and certain new, unobvious and useful inventions as set forth in applications for United States Patent, entitled: "Molding Apparatus and Method for Manufacturing Panels;" "Interlocking Mat System for Construction of Load Supporting Surfaces;" and "Fastening Device;" and

WHEREAS, Assignor owns Ronald L. Latiolais', Corey J. Fontenot's and Don A. Couvillion's entire right, title and interest in proprietary information and that certain new, unobvious and useful invention as set forth in application for United States Letters Patent, entitled: "Fastening Device"; and

WHEREAS, Assignor, OLS Consulting Services, Inc. ("Assignee") and The Loma Company, L.L.C. ("Loma") have stipulated that the proprietary information and/or new, unobvious and useful inventions described in the referenced patent applications, "Molding Apparatus and Method for Manufacturing Panels", "Interlocking Mat System for Construction of Load Supporting Surfaces" and "Fastening Device" shall be deemed Improvement Inventions for the purposes of that certain Exclusive License Agreement between Assignor dated effective July 1, 1995, as subsequently amended by agreements dated September 4, 1995 and December 11, 1996 (the "Exclusive License Agreement"), and assigned, in part, by OLS to Loma pursuant to manufacturing assignment dated effective January 1, 1997; and

WHEREAS, pursuant to the Exclusive License Agreement, Soloco is obligated to assign all of its right, title and interest in Improvement Inventions (as defined in the Exclusive License Agreement) to Assignee; and

WHEREAS, Assignee and Assignor agree, by their execution of this Invention Assignment, that any and all right, title and interest that Assignor has or may have had in and to the proprietary information and/or new, unobvious and useful inventions described in the referenced patent applications, "Molding Apparatus and Method for Manufacturing Panels," Interlocking Mat System for Construction of Load Supporting Surfaces" and "Fastening Device" shall be assigned and transferred by this Invention Assignment to Assignee.

NOW, THEREFORE, for good and valuable consideration, the receipt for and sufficiency of which is hereby acknowledged, Assignor does hereby sell, assign, transfer and set over unto said Assignee, its legal representatives, successors, and assigns, Assignor's entire right, title and interest in and to the proprietary information and/or new, unobvious and useful inventions described in the referenced patent applications, "Molding Apparatus and Method for Manufacturing Panels," "Interlocking Mat System for Construction of Load Supporting Surfaces" and "Fastening Device" including any continuations, continuations-in-part, divisions, reissues, re-examinations or extensions thereof, and in and to any and all patents of the United States and foreign countries that may be issued.

UPON SAID CONSIDERATIONS, Assignor will not execute any writing or do any act whatsoever conflicting with this Invention Assignment, and that Assignor will, at any time upon request, without further or additional consideration but at the expense of said Assignee, execute such additional assignments and other writings and do such additional acts as said

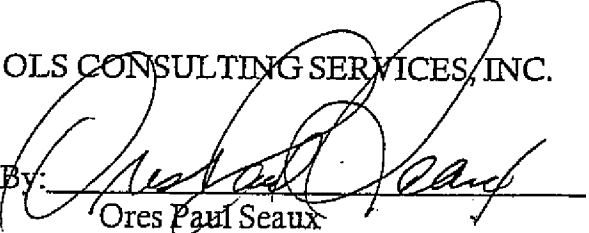

Assignee may deem necessary or desirable to perfect the Assignee's enjoyment of this grant, and render all necessary assistance in making applications for and obtaining original, divisional, continuations, continuations-in-part, reexamined, reissued, or extended Letters Patent of the United States or of any and all foreign countries on the proprietary information and/or new, unobvious and useful inventions described in the referenced patent applications, "Molding Apparatus and Method for Manufacturing Panels," "Interlocking Mat System for Construction of Load Supporting Surfaces" and "Fastening Device," and in enforcing any rights or causes in action accruing as a result of such applications or patents, by giving testimony in any proceedings or transactions involving such applications or patents, and by executing preliminary statements and other affidavits, it being understood that the foregoing covenant and agreement shall bind, and inure to the benefit of the assigns and legal representatives of Assignor and Assignee.
