**PATENT ASSIGNMENT
AGREEMENT**

THIS PATENT ASSIGNMENT AGREEMENT (this "Assignment"), effective as of October 21, 1991 (the "Effective Date"), is by and between Pierre R. Delajoud of 92200 Neuilly sur Seine, France ("Assignor") and CalAmerica, Corp. (formerly known as CalTechnix Corporation), a Delaware corporation ("Assignee").

WHEREAS, Assignor owns the letters patent of the United States, together with any reissue, continuation, continuation-in-part or extension thereof, and all proceeds thereof, including any and all causes of action which may exist by reason of infringement thereof for the full term of the Patent, as more particularly described on Schedule A annexed hereto as part hereof (collectively, the "Patents").

WHEREAS, Assignor is the President and founder of the Assignee.

WHEREAS, Assignor hereby assigns to Assignee, all right, title and interest in and to the Patents in accordance with the terms and conditions hereinafter set forth.

NOW, THEREFORE, for good and valuable consideration, the receipt and sufficiency of which are hereby expressly acknowledged, the parties agree as follows:

1. Assignor hereby assigns and transfers to Assignee, its successors and assigns, absolutely and forever as of the Effective Date, its entire right, title and interest in and to any and all subject matter of the Patents, in the United States, its territories and possessions, and any other countries, together with all causes of action for any and all previously occurring infringements of the rights being assigned and the right to receive and retain the proceeds relating to those infringements.
2. As of the Effective Date, all right, title and interest in the Patents shall be held and enjoyed by Assignee, for its own use and benefit and for the use and benefit of its successors, assigns and other legal representatives, as fully and entirely as the same would have been held and enjoyed by Assignor if this Assignment had not been made. Without limitation to the foregoing, Assignor assigns with the Patents all associated income, royalties, damages and payments due from or payable by any third party (including, without limitations, damages and payments for past, present, or future infringements or misappropriations thereof) and any and all corresponding rights that, now or hereafter, may be secured throughout the world.
3. Assignor agrees to execute further papers and to do such other acts as may be reasonably necessary and proper to vest full title in and to the Patents in Assignee.
4. Assignor agrees and undertakes that it will not engage in any of the following activities, and it will not facilitate or assist any other person or entity to: (1) challenge the validity of this Assignment; (2) challenge Assignee's rights to use, license or otherwise deal with the Patents in the United States, or any other country; or (3) exploit the Patents in the

United States, or any other country after the date of this Assignment, unless Assignor has the express, written authorization of Assignee to do so.

5. Assignor hereby represents and warrants that it has full right to convey the entire right, title and interest in the Patents herein assigned.
6. This Agreement may be executed in any number of counterparts, all such counterparts shall be deemed to constitute one and the same instrument, and each of the executed counterparts shall be deemed an original hereof.
7. This Assignment shall be governed and construed in accordance with the laws of the State of Arizona without regard to conflicts of laws principles thereof and all questions concerning the validity and construction hereof shall be determined in accordance with the laws of Arizona.

IN WITNESS WHEREOF, Assignor has caused this Assignment to be executed and delivered as of the Effective Date.
