ASSIGNMENT AND AGREEMENT

We, **George A. Plesko and Yuan-Hua Wang** (Assignors), hereby declare that we are the inventors of the invention relating to **BUTTON ACTUATION ASSEMBLY**, described in an application for Letters Patent of the United States of America identified as **U.S. Patent Application No. 11/560,381** and filed on **November 16, 2006**.

For valuable consideration received, we, Assignors, hereby sell, assign and transfer to **Metrologic Instruments, Inc.** (Assignee) with its principal place of business located at 90 Coles Road, Blackwood, New Jersey 08012, and its successors, assigns and legal representatives, our entire right, title and interest, for the United States of America, in and to said inventions, and all the rights and privileges in said application and under any and all Letters Patent and any divisions, continuations, continuations-in-part, reexamination certificates, reissues, and extensions thereof that may be granted in the United States for said inventions; and we, Assignors, also concurrently hereby sell, assign and transfer to Assignee our entire right, title and interest in and to said inventions for all countries foreign to the United States, including all rights of priority arising from the application aforesaid, and all the rights and privileges under any and all forms of protection, including Letters Patent, that may be granted in said countries foreign to the United States for said inventions.

We authorize the Assignee to make application for such protection in its own name and maintain such protection in any and all countries foreign to the United States, and to invoke and claim for any application for patent or other form of protection for said inventions, without further authorization from us, any and all benefits, including the right of priority provided by any and all treaties, conventions, or agreements.

We agree that, when requested, we shall, without charge to Assignee but at its expense, sign all papers, and do all acts which may be necessary, desirable or convenient in connection with said applications, patents, or other forms of protection.

We agree that, we will communicate to said Assignee or its representatives any facts known to us respecting said inventions and, when requested by said Assignee and at its expense, will testify in any legal proceedings, and generally do everything possible to aid said Assignee, its successors, assigns, and legal representatives or nominees, to obtain or enforce proper protection for said inventions in any and all countries.

We hereby consent that a copy of this assignment shall be deemed a full legal and formal equivalent of any document which may be required in any country in proof of the right of Assignee to apply for patent or other form of protection for said inventions and to claim the aforesaid benefit of the right of priority.

We request that any and all patents for said inventions be issued to Assignee in the United States and in all countries foreign to the United States, or to such nominees as Assignee may designate.

We covenant with **Metrologic Instruments, Inc.**, its successors, assigns, legal representatives, and nominees, that to the best of our knowledge the right, title, and interest herein conveyed by us, are free and clear of any incumbrance, and that we have full right to convey the same as herein expressed.
