Assignment

Whereas, VICTOR GURA, an individual, residing at 1211 Laurel Way, Beverly Hills, California 70210, and EDMUND RAMBOD, an individual, residing at 11731 Folkstone Lane, Los Angeles, California 90077 (“**ASSIGNORS**”), has invented certain new and useful improvements in and to the inventions, now currently pending U.S. patent applications, set forth on **Exhibit A** (the “Applications”); and

Whereas, NATIONAL QUALITY CARE, INC., a California corporation, located at 9033 Wilshire, Suite 500, Beverly Hills, California 90211 (“**ASSIGNEE**”), is desirous of acquiring the entire right, title, and interest in the Applications.

Now, Therefore, for other good and valuable consideration, Assignors, by these presents do hereby sell, assign, and transfer unto Assignee, its successors, assigns, and legal representatives the full and exclusive right to the Applications in the United States and the entire right, title, and interest in and to any and all Patents which may be granted therefore and/or therefrom in the United States, to all divisions, reissues, substitutions, continuations, continuations-in-part, and extensions of said applications. Assignors hereby authorize and request the Commissioner of Patents and Trademarks to issue all patents for the Applications, or patents resulting therefrom, insofar as Assignors’ interests are concerned, to Assignee, of the entire right, title, and interest in and to the same, for his sole use and benefit; and for the use and benefit of his legal representatives, to the full end of the term for which said Patent(s) may be granted, as fully and entirely as the same would have been held by the Assignors had this assignment not been made.

Assignors also sell and assign to Assignee, its successors, assigns and legal representatives the full and exclusive right, title, and interest to the Inventions disclosed in said Applications throughout the world, including the right to file applications and obtain patents, utility models, industrial models, and designs for the Inventions in the Assignee's own name throughout the world, including all rights of priority, all rights to publish cautionary notices reserving ownership of the Inventions and all rights to register the Inventions in appropriate registries, all foreign rights arising from pre-grant publication of the Applications; and Assignors further agree to execute any and all powers of attorney, applications, assignments, declarations, affidavits, and any other papers in connection therewith necessary to perfect such right, title and interest in Assignee, its successors, assigns and legal representatives.

Assignors further agree to communicate to Assignee, its successors, assigns and/or legal representatives, any known facts respecting any improvements, and, at the expense of Assignee, to testify in any legal proceedings, sign all lawful papers, execute all divisional, continuation, continuation-in-part, reissue and substitute applications, make all lawful oaths, and generally do everything possible to vest title in Assignee and to aid Assignee, its successors, assigns and legal representatives to obtain and enforce proper protection for the Inventions in all countries.
