**EXHIBIT B**  
**PATENT ASSIGNMENT**

For good and valuable consideration, the receipt of which is hereby acknowledged, CLEARWATER NETWORKS, INC., a California corporation having a place of business at 19200 Stevens Creek Boulevard, Suite 200, Cupertino, CA 95014 ("*Assignor*"), does hereby sell, grant, convey, assign and transfer unto MIPS TECHNOLOGIES, INC., a Delaware corporation having a place of business at 1225 Charleston Road, Mountain View, California 94043 ("*Assignee*"), and its Affiliates, successors, assigns, and transferees, the following:

1. All of Assignor's title, interest and right, including the right of priority (which includes all rights under the International Convention for the Protection of Industrial Property, also known as the "Paris Convention"), in, to and under the following: (i) those issued patents set forth on Schedule A attached hereto and all inventions therein set forth, described or claimed; (ii) those applications for patents set forth on Schedule A attached hereto and all inventions therein set forth, described or claimed, and any and all patents which may be granted thereon or therefor or corresponding thereto in any country, including any and all continuations, continuations-in-part, substitutions, divisionals, reissues, renewals, reexaminations, extensions, utility models, inventor's certificates or industrial designs thereof, now existing or hereafter filed, issued or acquired; and (iii) all rights to enforce the foregoing including the right to sue and recover all income, royalties, damages, and payments now or hereafter due or payable with respect to any of the foregoing rights, including, without limitation, damages for past, present or future infringement thereof, free and clear of all and any pledge, lien, collateral assignment, security interest, mortgage, title retention, conditional sale or other security arrangement, or any charge, adverse claim of title, ownership or right to use, or any other encumbrance of any kind whatsoever.

2. And for the above consideration Assignor agrees to and will promptly upon request of Assignee, and its heirs, successors or assigns: (i) communicate any facts known to Assignor respecting said patents, applications and all inventions set forth therein; (ii) execute and deliver without further compensation any power of attorney, assignment, application (including original, continuation, divisional, reissue, reexamination or extension) or other papers which may be necessary or desirable to fully secure to Assignee (and its heirs, successors and assigns) said patents and applications, all inventions set forth therein, and all related patent rights in the United States and in any country foreign thereto; and (iii) cooperate and assist in the prosecution of said

applications, in any interference proceedings involving the inventions set forth in said patents and applications, in any adjudication and reexamination of said patents, and in any other process or proceeding necessary or desirable to obtain, maintain and/or enforce said patents and applications in any and all countries throughout the world, provided the expenses which may be incurred by Assignor in lending such cooperation and assistance be paid by Assignee.

3. Assignor represents that it has not made, and covenants that it will not hereafter make, any assignment, grant, mortgage, license or other agreement affecting the rights, titles and interests herein conveyed. Assignor further covenants that it has the full right to convey the title, interest and right assigned by this Assignment.

4. Assignor hereby authorizes and requests the Commissioner of Patents of the United States and any official of any foreign country whose duty is to issue patents on applications as described above to issue any and all patents subject to this Assignment to the Assignee and its heirs, successors or assigns in accordance with the terms of this Assignment.

5. Nothing in this Assignment will, or will be deemed to, modify or otherwise affect any provisions of the Asset Purchase Agreement executed contemporaneously by the parties hereto or affect or modify any of the rights or obligations of the parties under the Asset Purchase Agreement. In the event of any conflict between the provisions hereof and the provisions of the Asset Purchase Agreement, the provisions of the Asset Purchase Agreement will govern and control.
