Assignment of Patent Rights

For good and valuable consideration, the receipt of which is hereby acknowledged, Intel Corporation, a Delaware corporation (the "Assignor") does hereby sell, assign, transfer and convey unto Eicon Networks Corporation, a Canadian corporation ("Assignee") all of Assignor's right, title and interest in and to the patent (the "Patent Rights") listed on the attached Exhibit 1, (the "Transferred Patent").

Assignor represents, warrants, and covenants that: (i) it is the sole owner, assignee and holder of record title to Transferred Patent, (ii) it has obtained and properly recorded previously executed assignments for all patent applications identified above as necessary to fully perfect its rights and title therein in accordance with the governing law and regulations in each respective jurisdiction, and (iii) it has full power and authority to make the present assignment.

Assignor further agrees to and hereby does sell, assign, transfer, and convey unto Assignee all rights: (i) in and to causes of action and enforcement rights for the Patent Rights including rights to pursue damages, injunctive relief and other remedies for past and future infringement thereof, and (ii) to apply in any or all countries of the world for patents, certificates of invention or other governmental grants for the Patent Rights, including without limitation under the Paris Convention for the protection of Industrial Property, the International Patent Cooperation Treaty, or any other convention, treaty, agreement, or understanding. Assignor also authorizes the respective patent office or governmental agency in each jurisdiction to issue any and all patents or certificates of invention which may be granted upon any of the Patent Rights in the name of Assignee, as the assignee to the entire interest therein.

In Witness Whereof, this Assignment of Patent Rights is executed at Santa Clara, California on September 21, 2006.
