in Box 4A. This error is apparent from a comparison with the recorded assignment document, obtained in parent PCT International Application No. PCT/US99/10291 ("the '291 application"), filed on May 11, 1999 and designating the United States of America. The recorded assignment document identifies the '291 application by the name of each inventor, by the title of the invention, and by the application's three listed priority documents. The assignment document is effective in the instant application and patent, because the instant application is a continuation of the '291 application. See M.P.E.P. § 306.

Pursuant to 37 C.F.R. § 3.34, patentees and assignee enclose a Corrected Recordation Form Cover Sheet to correct the application number in the originally-filed Recordation Form Cover Sheet and a copy of the February 3, 2004 Notice of Recordation of Assignment Document ("the Notice") in the instant application and patent. The Notice includes a copy of the original cover sheet and the assignment document, as recorded. In addition to correcting the application number in Box 4A, the corrected cover sheet also recites the instant patent number in Box 4B, updated correspondence information in Box 5, and authorization to charge the recording fee set forth in 37 C.F.R. §§ 1.21(h) and 3.41 in Boxes 7 and 8. The copy of the original cover sheet in the enclosed Notice will facilitate the Office's comparison of the corrected cover sheet with the originally-recorded cover sheet.
