ASSIGNMENT

WHEREAS Covigo, Inc., hereinafter referred to as "Assignor," is the sole owner of the United States Patent Applications listed in Schedule A attached hereto; and

WHEREAS, Symbol Technologies, Inc., hereinafter referred to as "Assignee," is desirous of acquiring the entire right, title and interest of the Assignor in the applications listed in Schedule A, and any divisions, continuations and continuations-in-part thereof, whether pending or abandoned, and in and to any United States Letters Patent which may be issued on any of said applications, and any reissues thereof, and in and to any and all applications for Letters Patent filed in foreign countries claiming priority to the applications listed in Schedule A, whether pending or abandoned, and including all priority rights under the Paris Convention, and any and all Letters Patent which may be granted in foreign countries therefore, all hereinafter referred to inclusively as the "Assigned Applications" and including, but not limited to, those applications identified in the attached Schedule A; and

NOW, THEREFORE, BE IT KNOWN THAT, in consideration of good and valuable consideration, the receipt of which is hereby acknowledged, Assignor, by these presents, irrevocably assigns, transfers and conveys unto Assignee, its successors and assigns, its entire right, title and interest in and to the Assigned Applications including, but not limited to, the sole and exclusive right to bring suit for past and future infringement of any patent issued from any of the Assigned Applications, and to collect any and all damages for such infringement, and the sole and exclusive right to prosecute any pending application for patent that is included in the Assigned Applications, and the sole and exclusive right to initiate and prosecute any reissue and reexamination proceedings relating to the Assigned Applications, the same to be held and enjoyed by Assignee, its successors and assigns, for its own use and behoof, to have and to hold the same to the full end of the term or terms for which any Letters Patent issuing from the Assigned Applications is granted, as fully and entirely as the same would have been held by Assignor had this assignment not been made; and

ASSIGNOR REPRESENTS THAT, to its knowledge, it is the exclusive owner of all right, title and interest in the Assigned Applications listed on attached

Schedule A and Assignor has the right and full power to enter into this assignment; and

ASSIGNOR REPRESENTS THAT the Assigned Applications and rights assigned hereby are not encumbered by any grant heretofore given by Assignor and are free of any liens, security interests, encumbrances or licenses created by or through Assignor; and

ASSIGNOR REPRESENTS THAT it has not received any bone fide notice of any claims, pending or threatened, with respect to Assignor's rights in the Assigned Applications and Assignor is not subject to any agreement, judgment or court order that conflicts with the terms of this Agreement; and

ASSIGNOR REPRESENTS THAT Assignor shall and will do all lawful acts and things and make, execute and deliver without further compensation, any and all other instruments in writing, further applications, papers, affidavits, powers of attorney, assignments, and other documents which, in the reasonable opinion of counsel for Assignee, its successors and assigns, may be reasonably required or necessary to more effectively carry out the provisions of this Assignment; and

Assignor does hereby authorize and request the Commissioner of Patents and Trademarks to issue any United States Patent issuing from the Assigned Applications to said Symbol Technologies, Inc. as the assignee of the entire right title and interest in the Assigned Application; and

This Patent Assignment shall be governed by and construed in accordance with the laws of the state of New York without giving effect to the principles of conflicts of laws thereof.

Executed this 26th day of October, 2006.
